

# 2009 PRODUCTS, MATERIALS, AND SERVICES DIRECTORY

## 4th Annual Buyers Guide

The November/December 2008 issue is a directory of products, materials, and services that relate directly to the business of radioactive waste management and site cleanup and remediation.

This issue will be used throughout the year ahead by decision-makers with purchasing authority. If your company is a player in this critical segment of nuclear industry make sure you are listed. We'd also encourage you to place an ad to help ensure readers are aware of the products, services, and capabilities you can provide.

A Publication of the American Nuclear Society

**Ad Space Deadline:**

**Wednesday, October 8**

**Ad Material Due:**

**Wednesday, October 15**

## **Circulation Profile: 5,000 plus!**

In addition to the regular subscribers, this issue will be seen by readers that may not regularly see *Radwaste Solutions* or the *Nuclear News Buyers Guide* including:

- Key Government Representatives, Offices, and Work Sites, including:

Senate Energy and Natural Resources Committee	House Committee on Energy and Commerce	House Science and Technology Subcommittee on Research	Senator Thomas Carper's Office
Senate Environment and Public Works Committee	House Science and Technology Subcommittee on Energy and Environment	House Energy and Water Appropriations Subcommittee	Hanford Site
Senate Appropriations Subcommittee on Energy and Water Development	House Science and Technology Subcommittee on Research and Science Education	Congressman Mike Simpson's Office	Savannah River Site
		Senator Larry Craig's Office	Yucca Mountain Project
		Senator Jeff Sessions' Office	Waste Isolation Pilot Plant
			Idaho National Laboratory
			Oak Ridge National Laboratory

- All members of the following ANS professional divisions: Decommissioning, Decontamination, & Reutilization; Environmental Sciences; Fuel Cycle & Waste Management

**Last year 775 companies were listed throughout nearly 400 categories. Were you?**

**—See listing information on back—**
