Big science.
Big opportunities.

Oak Ridge National Laboratory is pursuing practical fusion energy, enabling economical nuclear energy, developing modeling and simulation tools, and driving new applications and efficient production of unique isotopes.

We’re hiring leaders.

In May 2020, we launched “Reimagining ORNL” to strategically expand opportunities for scientific leadership aligned with growth in key program mission needs and emerging research areas.

As part of the effort, ORNL’s Leadership Team considered how to sustain global leadership in research and development, a relentless pursuit of operational excellence, and an inclusive environment that fosters innovation, creativity, and collaboration.

As part of Reimagining ORNL, we are seeking candidates for leadership positions in:

• Enrichment Science and Engineering
• Fusion Energy
• Nuclear Energy and Fuel Cycle Technology
• Isotope Production
• Nuclear Facilities Operations

For additional information, contact nuclearrecruiting@ornl.gov

ORNL is an equal-opportunity employer. All qualified candidates, including protected veterans and individuals with disabilities, are encouraged to apply. ORNL is an E-Verify employer.

“Coming to Oak Ridge National Laboratory—where there is so much history in the world’s first operational nuclear reactor to some of the earliest isotope production—you find inspiration everywhere you look. It is truly a fertile ground for nuclear innovation.”

- Roy Copping, Group Leader, Nuclear & Radiochemistry
