Reliable digital I&C upgrades

When it comes to modernizing your instrumentation and control (I&C) systems, you can trust that Framatome has the experience to meet your needs. Why? Because we've completed more than 300 I&C projects around the globe including full-scale modernizations. Our innovative technology provides backward compatibility and future lifecycle management to ensure successful operation for the life of your plant.

We work closely with your team as a unique single-source supplier to provide reliable equipment so you can be certain you'll have safe and efficient plant operation.

Power on. For the future of clean energy.
