

**Providing World-Class Manufacturing Solutions for
Fusion Development & Deployment**

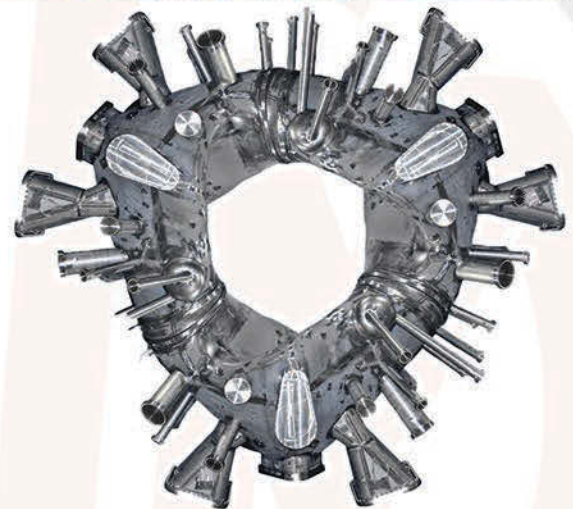

We are the Fusion of Engineering & Ingenuity.

At Major Tool & Machine, we provide manufacturing solutions to fusion development and deployment challenges:

**Collaborative Design for Manufacturability
Complex geometry fabrication, machining,
and assembly**

**Materials and Process controls to assure
low magnetic permeability**

**Experienced in magnetic and ICF applications
Prototype to production scalability**

Major Tool & Machine is a world leader in contract manufacturing, fabrication, and machining services. Since 1946, Major Tool & Machine has provided exceptional customer satisfaction with our persistent dedication to quality, service, and state-of-the-art technology.
