IDAHO NATIONAL LABORATORY

INL is playing a key role in helping create a low-carbon energy future for the nation. We're partnering with private industry, academic institutions and other organizations to deploy advanced energy systems and support the ongoing operation of the current reactor fleet.

To meet our ambitious goals, we need experts in a wide range of fields, including:

- Nuclear/Mechanical Engineering
- Computer Science
- Materials Science
- Radiochemistry/Analytical Chemistry
- Human Factors
- Statistics

We offer flexible schedules, relocation packages, competitive salaries and other benefits, in one of the fastest-growing states in the country. Apply now at [inl.gov/nuclear-careers](https://inl.gov/nuclear-careers).
