

**THE VALUE OF
MAINTAINING
CLASSIC POWER FOR
THE MODERN ERA.**

Like a vintage car, legacy nuclear plants still have a lot of life left in them—if you know what you’re doing. And with over 60 years of experience in nuclear I&C, Northrop Grumman is uniquely qualified to help you maintain or upgrade legacy systems for today’s needs—even in a heavily regulated environment. Whether you need a surgical modification or a total system replacement, we’re ready to keep your classic going strong. *That’s why we’re a leader in nuclear instrumentation and control systems.*

THE VALUE OF PERFORMANCE.

NORTHROP GRUMMAN
