Associates, Inc.®

INSPECTION OPTIMIZATION

PROBABILISTIC FRACTURE MECHANICS

CONDITION-BASED MAINTENANCE SOLUTIONS FOR SAFE OPERATION

Regulatory required in-service inspection of critical nuclear components and welds is both costly and dose intensive. With the use of the NRC audited Probabilistic Fracture Mechanics (PFM) Code PROMISE, Structural Integrity can help clients reduce outage costs and dose through analytically optimizing the frequency of current inspection requirements. Call us today to discuss how we can help you reduce your in-service inspection costs! Learn more at www.structint.com/nuclear-news.

The Structural Integrity Advantage

Powered by talent and technology, Structural Integrity is a global leader in innovative integrity solutions. Our signature services offer a unique blend of state-of-the-art science and old-fashioned customer service.
