

dedicated to RIPB, which includes information about RIPB regulations and international policy initiatives, and links to ANS Position Statement 46, “Risk-informed and performance-based regulations for nuclear power plants,” and to the ANS RIPB Principles and Policy Committee. The site also explains the efforts undertaken by the Nuclear Regulatory Commission to implement RIPB regulations in its requirements.

Other ANS-affiliated events that took place for Nuclear Science Week included the following:

- ANS hosted a Halloween Trivia Night on October 20.
- On October 21, the ANS Young Members Group hosted a free webinar for K-12 teachers on developing curricula to teach about nuclear science, engineering, and technology.
- Also on October 21, ANS and Discovery Education shared Navigating Nuclear’s interactive digital curriculum and resources, including a virtual field trip of Idaho National Laboratory, at a free webinar, “Inspire Curiosity: Nuclear Science and Innovation.” The INL-hosted webinar discussed how INL works to change the world’s energy future and was targeted toward educators, college and career advisors, and policymakers.

Ph.D. FELLOWSHIP OPPORTUNITIES

ELIGIBILITY: U.S. CITIZENS WHO ARE SENIOR UNDERGRADUATES OR STUDENTS IN THEIR FIRST OR SECOND YEAR OF GRADUATE STUDY.

The Department of Energy National Nuclear Security Administration Stewardship Science Graduate Fellowship (**DOE NNSA SSGF**) provides outstanding benefits and opportunities to students pursuing degrees in stewardship science areas, such as **properties of materials under extreme conditions and hydrodynamics, nuclear science, or high energy density physics.**

The fellowship includes a 12-week research practicum at Lawrence Livermore National Laboratory, Los Alamos National Laboratory or Sandia National Laboratories.

APPLICATIONS DUE 1.6.2021
www.krellinst.org/ssgf

ELIGIBILITY: U.S. CITIZENS WHO ARE ENTERING THEIR SECOND (OR LATER) YEAR OF GRADUATE STUDY.

The Department of Energy National Nuclear Security Administration Laboratory Residency Graduate Fellowship (**DOE NNSA LRGF**) gives students the opportunity to work at DOE NNSA facilities while pursuing degrees in fields relevant to nuclear stockpile stewardship: **engineering and applied sciences, physics, materials, or mathematics and computational science.**

Fellowships include at least two 12-week research residencies at Lawrence Livermore, Los Alamos or Sandia national laboratories, or the Nevada National Security Site.

APPLICATIONS DUE 3.17.2021
www.krellinst.org/lrgf

These equal opportunity programs are open to all qualified persons without regard to race, gender, religion, age, physical disability or national origin.
