

SMARTER, CLEANER POWER TO THE WORLD

Imagine a future where billions of people around the globe have all the electricity, cleaner air and drinkable water they need. Imagine how that will affect our world's collective quality of life. We can say with confidence that Small Modular Reactor (SMR) technology from NuScale is the foundation for that future. Our innovative VOYGR™ SMR power plants are carbon-free, safer, and scalable for meeting energy demands large and small. A bold new energy future starts now, with NuScale. Power for All Humankind.

NUSCALE™
Power for all humankind
