

The Nuclear Regulatory Commission's Advisory Committee on Reactor Safeguards has elected its leadership for 2022. **Joy Rempe** has

Rempe

been elected chair, **Walter Kirchner** vice chair, and **David Petti** member-at-large. All three have had 30-plus-year careers in the nuclear field, and all three are ANS members. Rempe, an ANS Fellow, retired from Idaho National Laboratory as a Laboratory

Fellow. Kirchner most recently served as an institutional liaison manager for Argonne National Laboratory. Petti is an Emeritus Fellow at INL.

Kym Harshaw has been selected as the new chief nuclear officer of STP Nuclear Operating Company. She has served as acting CNO since August. Prior to taking the CNO position, Harshaw served as vice president of regulatory

Harshaw

affairs and general counsel since joining the company in 2016. She has more than 26 years of experience in the nuclear industry.

Welsch

James M. Welsch, ANS member since 2015 and senior vice president of generation and chief nuclear officer for Pacific Gas and Electric Company, has retired after 37 years with *People continues*

NETS
2022

ENABLING SPACE MISSIONS WITH NUCLEAR ENERGY

NUCLEAR and EMERGING TECHNOLOGIES for SPACE

The NETS 2022 conference will bring attention to the latest advancements in space nuclear systems and provide a forum for researchers, engineers and managers to discuss progress on current activities. The conference presents a unique opportunity for collaborative exchanges and data sharing among the US government, international community, industry and academia on space nuclear technologies and missions. This year's NETS conference will highlight topics related to past missions and programs, new systems under development, external influences such as terrestrial nuclear energy, and mission pull related to the moon, Mars and beyond.
