

BUILT UPON EXCELLENCE TO SUPPORT THE FUTURE OF NUCLEAR POWER

OIL-TO-SALT HEAT EXCHANGERS | FEEDWATER HEATERS | CONDENSERS | MSRs | SMRs | SHELL & TUBE HEAT EXCHANGERS

Thermal Engineering International (USA) Inc. has been a trusted partner for heat transfer equipment solutions to nuclear power stations for over 65 years, including a leading supplier of SMRs. TEi provides skid packages including system design and instrumentations. The innovator of notable "firsts" – including the introduction of advanced MSR technology for the early nuclear plants – the company continues to seek new products and methods to improve daily operations and to position the industry for the future.
