

Kudos

Ethan Deters, a nuclear engineering student at the University of Tennessee, and **Spencer Ercanbrack**, a nuclear engineering student at Idaho State University, are Tau Beta Pi award winners for 2021–22 academic

Deters

Ercanbrack

year. Tau Beta Pi, the engineering honor society, selected 261 engineering students in all from various disciplines for awards of \$1,000 or \$2,000.

Obituaries

Russell Mosteller, 75, ANS Fellow and member; graduated in 1968 with a bachelor’s degree in physics from the Massachusetts Institute of Technology; was awarded an Atomic Energy Commission fellowship to attend the University of Michigan, where he received his master’s degree in nuclear engineering in

1969 and his Ph.D. in 1973; played a major role in the development and benchmarking of the Electric Power Research Institute’s ARMP and ARMP-02 steady-state reactor physics code packages; joined Los Alamos National Laboratory in 1990 and retired in 2012; recent research was devoted primarily to the development and benchmarking of codes and methods for light water reactor core kinetics analysis; was onetime chair of the ANS Reactor Physics Division and after retirement continued to work on several advisory committees for ANS; died June 29. ☒

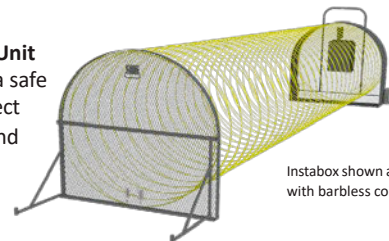

At Razor Ribbon, Our Experts Secure Your Vision

View the full line of solutions that deter, delay and protect at: dubosenes.com/oem-partners/

Razor Ribbon® has proudly been the world’s leading and longest standing manufacturer of barbed tape products since 1979. We offer great infrastructure solutions that protect.

The **Portable Rapid Deployment Unit “Instabox”** is designed to create a safe and effective barrier used to protect against intrusion in both indoor and outdoor applications

Instabox shown above with barbless coil

The **Razor Cage** is a steel structure designed to protect open space equipment and is easily moved and deployed
