

NUCLEAR GLOVEBOXES

Bechtel National Gloveboxes

Petersen Inc. is a trusted source for custom gloveboxes within the nuclear industry on key projects throughout the country. These include Hanford Vitrification Plant, LANL, MOX, UPF facility, and more. We provide assembly, testing, integration, and field installation for glovebox projects.

TRANSPORTATION AND STORAGE CASKS

Energy Solutions 3-60B Transport Cask

As an industry leader in manufacturing, companies rely on Petersen Inc.'s experience and NQA-1 compliant quality processes to meet their transportation and dry fuel storage cask needs.

REACTOR SERVICES

GE Hitachi Steam Dryer

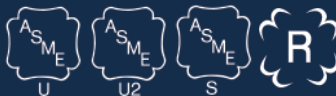

Petersen Inc. is an experienced partner in the nuclear power industry. We supply complex fabricated and machined complete assemblies as well as individual parts and installation to support operating nuclear power plants.

MELTERS

Bechtel National Melters

As a reliable provider, Petersen Inc. has supplied complex melters and supporting processing equipment, including stainless steel containers, to enable the vitrification process.
