2011 Utility Working Conference & Vendor Technology Expo

August 14-17, 2011 ■ Westin Diplomat ■ Hollywood, Florida

"It's Not Easy Being Green:

Innovations for Continued Safe, Secure, and Competitive Nuclear Operation"

Cyber Security & Digital I&C Issues

Please join your Utility, NRC, NEI, INPO, and EPRI peers at the 2011 Utility Working Conference. This conference brings together cyber security and Digital I&C professionals throughout the industry and provides an environment conducive to open communications on current issues, lessons learned and innovations.

Attendance to this years conference is especially important to I&C professionals since the INPO Digital I&C Workshop was cancelled because of the events surrounding the Japanese tsunami and impact to the Fukushima reactors. Also please note that there is a Cyber Security Workshop scheduled for Thursday Aug. 18.

Register now at: www.ans.org from the home page look for upcoming meetings and click on the Utility Working Conference and Vendor Technology Expo
