

19th International Conference on Environmental Degradation of Materials in Nuclear Power Systems- Water Reactor Student Grant Application

The 19th International Conference on Environmental Degradation of Materials in Nuclear Power Systems: Water Reactors will be held in Boston, Massachusetts, from August 18-22, 2019. The organizing committee is making a number of grants available for student attendees to help towards the cost of attending the conference. These will be prioritized as: student-presenters, student-poster participants, PhD students, and students whose thesis topic best fits the conference topics. These are not the criteria for application, but rather the criteria for selecting the grants.

Please be aware that as a condition of receiving a grant, you may be requested to assist the organizing committee with small tasks during the conference (assisting with the registration desk, aiding with microphones for Q&A, etc.).

To apply please fill out the information below, along with a 5 – 10 sentence explanation of why you should be awarded a grant, and return via registrar@ans.org, **NO LATER THAN JULY 12th, 2019.**

Yours sincerely,

Stuart Medway (Wood Nuclear).
Assistant Technical Program Chair, Conference Organizing Committee
