

# Fusion Science and Technology

CONTENTS / NOVEMBER 2011—VOL. 60, NO. 4

Proceedings of the  
**NINTH INTERNATIONAL CONFERENCE  
ON TRITIUM SCIENCE AND TECHNOLOGY  
(Part 2)**

**Nara, Japan, October 24–29, 2010**

**Guest Editor: Masao Matsuyama**

vii Comments / *Nermin A. Uckan*

ix Preface / *Satoru Tanaka, Tetsuo Tanabe*

## ENVIRONMENTAL AND ORGANICALLY BOUND TRITIUM

- 1211** Strategy for Environmentally and Socially Attractive Fusion Tritium System / *S. Konishi, T. Shibata, K. Noborio, Y. Yamamoto*
- 1215** Modeling the Build-Up of Organically Bound Tritium in Crops After Acute Tritium Exposure in Greenhouse's Environment / *Yu. Balashov, A. Golubeva, V. Golubeva, S. Mavrin, U. Pereligina*
- 1220** Large Scale Tritium Recovery from Obsolete Illumination Devices at LLNL / *J. M. Mintz, D. K. Spencer, D. M. Holck*
- 1224** Realistic and Practical Modeling of Tritium Deposition to Bare Soil / *H. Yamazawa, M. Ota, J. Moriizumi*
- 1228** Sensitivity Analysis of Rain Characteristics on HTO Concentration in Drops / *L. Patryl, D. Galeriu, P. Armand*
- 1232** Research and Development of Environmental Tritium Modelling / *D. Galeriu, A. Melintescu*
- 1238** 50 Years Environmental Tritium Transfer Review in the Vicinity of French Research Centre / *Ph. Guetat, C. Boyer, A. Tognelli, J. M. Duda*
- 1244** The Background Levels of Atmospheric Tritium and OB T at NIFS Toki Site of Japan / *Tatsuhiko Uda, Masahiro Tanaka, Toshiya Tamari, Hideki Kakiuchi, Noriyuki Momoshima*
- 1248** Environmental OB T/TFWT Ratios Revisited / *P. Jean-Baptiste, E. Fourré, D. Baumier, A. Dapoigny*
- 1252** OB T Measurement of Vegetation by Mass Spectrometry and Radiometry / *T. Tamari, H. Kakiuchi, N. Momoshima, N. Baglan, S. Sugihara, T. Uda*

(Continued)

# CONTENTS / NOVEMBER 2011—VOL. 60, NO. 4

(Continued)

- 1256** Low-Level Measurement with a Noble Gas Mass Spectrometer for Organically Bound Tritium in Environmental Samples / *H. Kakiuchi et al.*
- 1260** Tritium Concentration in River Water and Groundwater Collected in Rokkasho, Aomori, Japan / *Hidenao Hasegawa, Shinji Ueda, Hiroshi Kakimoto, Satoko Takaya, Shun'ichi Hisamatsu*
- 1264** Variation of Tritium Concentration in Coastal Seawater Collected Along the Pacific Coast in Aomori Prefecture / *Takeshi Muranaka, Jun Yamashita, Nagayoshi Shima*
- 1268** Tritium Emissions from a Detritiation Facility / *L. Rodrigo, O. El-Behairy, H. Boniface, C. Hotrum, K. McCrimmon*
- 1272** Site Specific Atmospheric Dispersion Simulation System—Tritium Release / *H. Kido, M. Nemoto, K. Tomita, N. Kurosawa, H. Kimura, H. Yasuda*
- 1276** Theoretical Study of the Reactivity of Mixed Manganese and Silver Oxides on Hydrogen Simulating Tritium for the Limitation of Outgassing from Waste Drums / *X. Lefebvre, K. Liger, M. Troulay, N. Ghirelli, C. Perrais*
- 1280** Tritium Concentration in Environmental Samples Around the Rokkasho Reprocessing Plant / *Shigeru Kitabatake et al.*
- 1284** Consequences of Different Meteorological Scenarios in the Environmental Impact Assessment of Tritium Release / *P. Castro, M. Velarde, J. Ardao, J. M. Perlado, L. Sedano*
- 1288** Modelling and Validation of OBT Formation in Tomato and Potato Plants / *V. Y. Korolevych, S. B. Kim*
- 1292** Determination of the Atmospheric HTO Concentration Around the Nuclear Fuel Reprocessing Plant in Rokkasho by Using a Passive Type Sampler / *Naofumi Akata, Hideki Kakiuchi, Kuniaki Kanno, Nagayoshi Shima, Shun'ichi Hisamatsu*
- 1296** Validation of a Radionuclide Transfer Model in Brackish Lake / *Shinji Ueda, Hideki Kakiuchi, Hidenao Hasegawa, Shun'ichi Hisamatsu*
- 1300** Behavior of Environmental Tritium at NIFS Toki Site of Japan / *S. Sugihara et al.*
- 1304** Natural Occurrence of Tritium in the Ecosystem of the Yenisei River / *Lydia Bondareva*

## DETRITIATION AND ISOTOPE SEPARATION

- 1311** Tritium and Technology Developments for Its Management—A Canadian Perspective / *S. Suppiah, N. Philippi, J. Senohrabek, H. Boniface, L. Rodrigo*
- 1317** Caper Modifications and First Experimental Results on Highly Tritiated Water Processing with PERMCAT at the Tritium Laboratory Karlsruhe / *D. Demange et al.*
- 1323** Hydrogen-Tritium Isotope Separation by CECE Process with a Randomly Packed LPCE Column / *Takahiko Sugiyama, Eiji Suzuki, Masahiro Tanaka, Ichiro Yamamoto*

(Continued)

# CONTENTS / NOVEMBER 2011—VOL. 60, NO. 4

(Continued)

- 1327** A Light-Water Detritiation Project at Chalk River Laboratories / *H. A. Boniface, I. Castillo, A. E. Everatt, D. K. Ryland*
- 1331** TCAP Hydrogen Isotope Separation Using Palladium and Inverse Columns / *L. K. Heung, H. T. Sessions, X. Xiao*
- 1335** Detritiation Behavior of HTO in a Epoxy Paint / *Kazuhiro Kobayashi, Hirofumi Nakamura, Takumi Hayashi, Toshihiko Yamanishi*
- 1339** Oxidation of Hydrogen over Honeycomb Catalysts Under the Presence of Water Vapor / *K. Hara, K. Munakata, T. Wajima, K. Wada, T. Takeishi, M. Tanaka, T. Uda*
- 1343** Evaluation of Hydrogen Isotope Oxidation Process in an Atmospheric Pressure Plasma / *K. Akahane, N. Ezumi, Y. Uesugi, Y. Tanaka, M. Tanaka, K. Nishimura*
- 1347** A Small Closed-Cycle Combined Electrolysis and Catalytic Exchange Test System for Water Detritiation / *H. Boniface, S. Suppiah, K. Krishnaswamy, L. Rodrigo, J. Robinson, P. Kwon*
- 1351** Characteristics of Honeycomb Oxidizing Catalysts to Recover Tritiated Hydrogen and Methane Gases / *Tatsuhiko Uda, Masahiro Tanaka, Takaaki Wajima, Kenzo Munakata*
- 1355** Successive Hydrogen Isotope Separation/Enrichment by Pressure Swing Adsorption Using SZ-13X Column / *K. Kotoh et al.*
- 1359** Performance Characterization of Hydrogen Isotope Exchange and Recombination Catalysts for Tritium Processing / *S. Suppiah, D. Ryland, K. Marcinkowska, H. Boniface, A. Everatt*
- 1363** Application of Membrane Dehumidifier for Gaseous Tritium Recovery in the LHD / *Y. Asakura, M. Tanaka, H. Ogawa, S. Takami*
- 1367** Effect of Impurities on the Performance of a Pd-Ag Diffuser / *Gregg A. Morgan, Jr.*
- 1371** Experimental Results for the Isotopic Exchange of a 1600 Liter Titanium Hydride Storage Vessel / *J. E. Klein*
- 1375** HTU Dependence on an Isotope Species—Experimental Study on “EVIO” Pilot Plant / *O. A. Fedorchenko, I. A. Alekseev, E. A. Arkhipov, S. D. Bondarenko, T. V. Vasyanina*
- 1379** Demonstration of Tritium Extraction from Tritiated Methane in Helium by Utilizing Plasma Decomposition / *Kazunari Katayama, Satoshi Fukada, Masabumi Nishikawa*
- 1383** Hydrogen Isotope Equilibration Induced by Tritium Radiation—Ab Initio Approach to Reaction Kinetics / *A. B. Sazonov, E. P. Magomedbekov*
- 1387** Development of High Efficiency Electrode for Highly Tritiated Water Processing / *K. Isobe, T. Yamanishi*
- 1391** Extraction of Hydrogen and Tritium Using High-Temperature Proton Conductor for Tritium Monitoring / *M. Tanaka, T. Sugiyama, T. Ohshima, I. Yamamoto*

(Continued)

# CONTENTS / NOVEMBER 2011—VOL. 60, NO. 4

(Continued)

- 1395** Tritium Removal from Tritiated Water Using Mesoporous Silica / *A. Taguchi, R. Akai, M. Saito, Y. Torikai, M. Matsuyama, M. Ogura, S. Uchida*
- 1399** Simulation Code for Wet Gas Detritiation Via Pd-Based Membrane Reactor / *F. Borgognoni, S. Tosti, C. Rizzello, M. Vadrucci, N. Ghirelli, K. Liger*
- 1403** Development and Performance of a Multibipolar HTO Electrolysis System / *Denis Jurkin, Günther Müllen, Jörg Aign*
- 1407** The Ways to Increase Light Water Detritiation Efficiency by Chemical Isotope Exchange Between Hydrogen and Water in Membrane Contact Devices / *M. B. Rozenkevich, I. L. Rastunova*
- 1411** The Prediction of Tritium Level Reduction of NPP Cernavoda Using CTRF / *Anisia Bornea, Marius Zamfirache, Liviu Stefan, Ioan Stefanescu*
- 1415** Cryogenic Adsorption of Hydrogen Isotopes over Nano-Structured Materials / *X. Xiao, L. K. Heung*
- 1419** Facility for Endurance Testing of Hydrophobic Isotope Exchange Catalysts / *Lidia Matei, C. Postolache, C. Tuta, S. Brad*
- 1423** Development of Tritium Recovery by Flowing O<sub>2</sub> + Ar Gases at Steam Generator in Fast Breeder Reactor / *Yasuhisa Oya, Takuji Oda, Satoru Tanaka, Kenji Okuno*
- 1427** Estimation of DTRF Operational Tritium Inventory Using Cryogenic Distillation Column Temperature / *J. W. Kim, T. C. W. Wong, F. K. W. Tang, A. Reid*
- 1431** HCLL and HCPB Coolant Purification System: Preliminary Measurement and Instrumentation Plan / *K. Liger, A. Ciampichetti, D. Demange*
- 1436** Conductance Characteristics of Hydrogen Isotopes Between Viscous and Molecular Flow Regions in Spherical Pellet Packed-Beds at 77.4 K / *Shoji Takashima, Kenji Kotoh, Shotaro Moriyama, Takafumi Tsuge*
- 1440** Detritiation System of Air with Honeycomb Catalyst and Adsorbent / *K. Munakata, K. Hara, T. Wajima, K. Wada, K. Katekari, M. Tanaka, T. Uda*

## INTERACTION WITH MATERIALS

- 1447** Effects of Steady-State Plasma Exposure on Tungsten Surface Cracking due to Elm-Like Pulsed Plasma Bombardment / *D. Nishijima, Y. Kikuchi, M. Nakatsuka, M. J. Baldwin, R. P. Doerner, M. Nagata, Y. Ueda*
- 1451** Thermal Growth of Hydrogen Trap in Ion-Irradiated W / *I. Takagi, K. Yamamichi, R. Imade, T. Sasaki, H. Tsuchida, K. Moritani, H. Moriyama*
- 1455** Development of Monte Carlo Simulation Code to Model Behavior of Hydrogen Isotopes Loaded into Tungsten Containing Vacancies / *T. Oda et al.*
- 1459** On the Fate of Tritium in Nickel / *M. Saito, Y. Torikai, R.-D. Penzhorn, K. Akaishi, M. Matsuyama*
- 1463** Application of Tritium Tracer Technique to Determination of Hydrogen Diffusion Coefficients and Permeation Rate near Room Temperature for Tungsten / *T. Ikeda, T. Otsuka, T. Tanabe*

(Continued)

# CONTENTS / NOVEMBER 2011—VOL. 60, NO. 4

(Continued)

- 1467** Modeling of Impurity Transport in Edge Plasmas and Tritium Codeposition on Plasma Facing Walls in ITER / *M. Bando, K. Ohya, K. Inai*
- 1471** Water Vapor Permeability of Polypropylene / *Yuka Togashi, Masanori Hara*
- 1475** Hydrogen Isotope Retention and Desorption in Tungsten During Glow Discharges / *Y. Yamauchi, Y. Kimura, Y. Kosaka, Y. Nobuta, T. Hino, K. Nishimura, Y. Ueda*
- 1479** The Effect of  $^3\text{He}$  on Low Pressure Hydride Absorption Measurements with Tritium / *G. C. Staack, J. E. Klein*
- 1483** Investigation on Thermal Release Behavior of Helium-Charged Copper Films by DC Magnetron Sputtering / *Q. Qi, X. F. Wang, L. Q. Shi, L. Zhang, B. Zhang, Y. F. Lu, A. Liu*
- 1487** A Study on Carbon and Hydrogen Co-Deposition Behavior in Methane-Hydrogen Mixed Plasma / *S. Kasahara, K. Katayama, T. Fujiki, S. Ishikawa, S. Fukada, M. Nishikawa*
- 1491** Solubility of Tritium in Cu-Be Alloy / *M. Matsuyama, K. Shinmura, Z. Chen, Y. Torikai*
- 1495** Overview of Recent Tritium Experiments in TPE / *Masashi Shimada, T. Otsuka, R. J. Pawelko, P. Calderoni, J. P. Sharpe*
- 1499** Influence of Chromium Oxide Layer on Surface Tritium Contamination of Type 316 Stainless Steel / *Yohei Ozeki, Yuji Hatano, Haruka Taniguchi, Masao Matsuyama*
- 1503** Absorption and Desorption Characteristics of Hydrogen Isotopes Implanted into Stainless Steel by Glow Discharge and Baking / *K Nishimura, K. Takatsuka, M. Matsuyama, N. Noda, M. Tanaka*
- 1507** Molecular Statics Study of Hydrogen Isotope Trapping in BCC-Iron Vacancy Clusters / *J. Maisonneuve, T. Oda, S. Tanaka*
- 1511** Hydrogen Permeation Measurements in the Spherical Tokamak QUEST and Its Numerical Modeling / *S. K. Sharma et al.*
- 1515** Effects of Tritiated Water on Corrosion Behavior of SUS304 / *Makoto Oyaidzu, Kanetsugu Isobe, Takumi Hayashi, Toshihiko Yamanishi*
- 1519** Radiogenic  $^3\text{He}$  and High-Pressure Hydrogen Impact on Mechanical Properties and Structure of CrNi40MoCuTiAl Alloy / *I. P. Maksimkin, A. A. Yukhimchuk, I. E. Boitsov, I. L. Malkov, A. Yu Baurin, S. K. Grischechkin, E. V. Shevnin*
- 1523** Hydrogen Trapping in Stainless Steel Irradiated by H and He Ions / *I. Takagi, Y. Ueyama, T. Komura, M. Akiyoshi, T. Sasaki, K. Moritani, H. Moriyama*
- 1527** Possibility of Metal Coatings on F82H as the Tritium Permeation Reduction Barrier / *Hirofumi Nakamura, Toshihiko Yamanishi*
- 1531** Study on the Hydrogen Isotope Permeation Behaviors of the FeAl/Al<sub>2</sub>O<sub>3</sub> Composite Coating / *Yong Hu, H. G. Yang, W. W. Zhao, Q. Zhan, X. M. Yuan, TMT Team*

(Continued)

# CONTENTS / NOVEMBER 2011—VOL. 60, NO. 4

(Continued)

- 1535** Tritium Absorption of CO-Deposited Carbon Films, Graphite and Polycrystalline Tungsten / *Y. Nobuta et al.*
- 1539** Behavior of Tritium near Surface Region of Metals Exposed to Tritium Plasma / *T. Otsuka, M. Shimada, T. Tanabe, J. P. Sharpe*
- 1543** Deuterium Retention in Damaged Tungsten / *K. Tsukatani et al.*
- 1548** Measurement of Dust Quantity and Distribution Collected from JT-60U / *T. Hayashi, N. Asakura, N. Ashikawa, T. Nakano*
- 1552** Hydrogen Interaction with Nickel Containing Radiogenic Helium / *T. Kompaniets et al.*
- 1556** Hydrogen Interaction with Stainless Steel 12Cr18Ni10Ti Containing Radiogenic  $^3\text{He}$  / *A. Yukhimchuk et al.*
- 1560** Tritium Distribution on First Wall Carbon Tiles in JT-60U / *M. Yoshida et al.*
- 1564** Implementation of Tritium Permeation Models in the CFD Code Fluent / *P. W. Humrickhouse, P. Calderoni, B. J. Merrill*
- 1568** Hydrogen Isotope Effects of Ti, Zr Metals / *Xinggui Long, Gang Huang, Shuming Peng, Jianhua Liang, Benfu Yang*
- 1572** Measurements of Carbon Dust Property in Experiment and Post-Campaign Sampling on JT-60U Tokamak / *Nobuyuki Asakura, Takao Hayashi, Naoko Ashikawa, Takaki Hatae, Tomokide Nakano*
- 1576** Effect of Substrate Surface Oxidation on Tritium Permeation Barrier Properties of MOD  $\text{Er}_2\text{O}_3$  Coating / *Dongxun Zhang, Teruya Tanaka, Takeo Muroga*
- 1580** High Temperature Mechanical Properties of Pure and Alloyed Group 5 Metals in View of Their Application as Tritium Permeation Materials / *Takuya Nagasaka, Takeo Muroga, Akio Sagara, Hiroshi Yukawa, Tomonori Nambu*
- 1584** Radiochemical Reactions Between Tritium and Carbon Dioxide at Elevated Temperatures / *K. Isobe, H. Nakamura, M. Nakamichi, T. Yamanishi*

## REVIEWERS/INDEXES/CONTENTS

**1588** Technical Reviewers
