

CORRIGENDUM

L. MERCADIER et al., “In Situ Tritium Measurements and Control by Laser Techniques,” *Fusion Sci. Technol.*, **60**, 1049 (2011).

On page 1051 in Sec. III.A, In situ laser ablation studies of C PFC samples: the Tore Supra example, the line, “Within the accuracy of the measurements, the bulk was eroded,” should read, “Within the accuracy of the measurements, the bulk was not eroded.” The sentence in the online version of this paper is correct.
