

### TECHNICAL PAPERS

#### FISSION REACTORS

- 301** Effect of Reducing Fuel Enrichment on the Void Reactivity—Part I: Experimental Study / *Hiroshi Fukui, Kaichiro Mishima, Seiji Shiroya, Masatoshi Hayashi, Keiji Kanda, Yasuhide Senda*
- 318** Effect of Reducing Fuel Enrichment on the Void Reactivity—Part II: Analytical Study / *Yasuhide Senda, Seiji Shiroya, Masatoshi Hayashi, Keiji Kanda*
- 335** Analysis of Upper Plenum Level Oscillatory Phenomena by TRAC-BD1 / *N. Abe, M. Kato, H. Nagasaka*
- 343** Two Identification Techniques for Disturbance Diagnosis in Nuclear Power Plants / *Jiro Wakabayashi, Shin-ichi Tashima, Akio Gofuku*
- 354** BGUCORE—A Computational System for Neutronic Analysis of a Pressurized Water Reactor Core / *Alex Galperin, Meir Segev, Anatoly Goldfeld, Yonathan Karni*

#### NUCLEAR SAFETY

- 364** Bruce Nuclear Generating Station B Rapid Cooldown Test and Validation of Simulation Model / *Y. F. Chang, P. C. Watson, M. D. Langan, P. Sermer*
- 376** A Chemical Equilibrium Estimate of the Aerosols Produced in an Overheated Light Water Reactor Core / *Robert P. Wichner, Roger D. Spence*

#### CHEMICAL PROCESSING

- 394** Correlation Functions for the Distribution Coefficients of U(IV) and Pu(III) Ions Between Aqueous Nitric Acid and 30% TBP in an Aliphatic Diluent / *John F. Geldard, Leigh Phillips, Adolph L. Beyerlein*

#### NUCLEAR FUELS

- 401** Direct Pressing: A New Method of Fabricating MX Fuel Pellets / *Karl Richter, Jean Gueugnon, Gerard Kramer, Carlo Sari, Paul Werner*

(Continued)

### ON THIS COVER

This month's cover is taken from a figure in the paper by H. Fukui et al., showing a view of the assembled fuel elements for the cylindrical core of the Kyoto University Critical Assembly.

# CONTENTS / SEPTEMBER 1985—VOL. 70, NO. 3

(Continued)

## RADIOACTIVE WASTE MANAGEMENT

- 408** Sodium Cleaning Procedures for PEC Prototype Mechanisms / *Roberto Caponetti*
- 424** Removal of Radioactive Sodium from Experimental Breeder Reactor-II Components and Conversion to a Disposable Solid Waste: Alcohol Recovery / *John R. Krsul, Robert A. Washburn*
- 433** Critique of the National Academy of Sciences Study of the Isolation System for Geologic Disposal of Radioactive Waste / *Bernard L. Cohen*

## DEPARTMENTS

- 295** Authors
- 441** Volume 70 Indexes
- v** Volume 70 Contents
