## TECHNICAL PAPERS

### REACTORS

- 5 Engineering Problems of Laser-Driven Fusion Reactors / *S. I. Abdel-Khalik, R. W. Conn, G. A. Moses*
- 22 A Generalized Theory for Predicting Mass Effluence During Reactor Reflooding / *K. H. Sun, R. B. Duffey*
- 28 The Influence of Physics Parameters on Tokamak Reactor Design / *David A. Ehst, Kenneth Evans, Jr., Weston M. Stacey, Jr.*
- 42 Use of Neutron Noise to Detect BWR-4 In-Core Instrument Tube Vibrations and Impacting / *D. N. Fry, R. C. Kryter, M. V. Mathis, J. E. Mott, J. C. Robinson*

### FUEL CYCLES

- 55 Characteristics of Plutonium-Topped Thorium Cycles in Heavy-Water-Moderated Pressure Tube Reactors / *S. Banerjee, F. W. Barclay*

### CHEMICAL PROCESSING

- 63 Savannah River Plant Thorium Processing Experience / *D. A. Orth*
- 75 Development of the Krypton Absorption in Liquid CO<sub>2</sub> (KALC) Process: Mass Transfer Efficiencies of Packed Columns / *Thomas Michael Gilliam*

### FUELS

- 88 On the Burnup-Dependent Heat Transfer from Fuel to Cladding in Fast Reactor Fuel Rods / *Helmut Elbel, José López Jiménez*

### MATERIALS

- 100 Mechanical Behavior of Honeycomb Spot-Welded Spacer Grids Irradiated in Two Fuel Rod Bundles / *D. Haas, J. Van de Velde, H. Braun*

(Continued)

## ON THIS COVER

This month's cover is from the paper by S. I. Abdel-Khalik et al. and shows a scheme for protecting the last mirror of a laser fusion reactor from pellet debris.

# CONTENTS / APRIL 1979—VOL. 43, NO. 1

(Continued)

## RADIOISOTOPES

- 109 Electrical Charging of Macroscopic Particles Using a Beta Source and Electric and Magnetic Fields / *Robert A. Fjeld, Robert Jennings Heinsohn, Samuel H. Levine*

## DEPARTMENT

- 1 Authors
