

NUCLEAR SCIENCE AND ENGINEERING®

VOLUME 84, NUMBER 1, MAY 1983

CONTENTS

TECHNICAL PAPERS

- 1 Measurement of the ^{242m}Am Neutron Fission Cross Section *J. W. T. Dabbs, C. E. Bemis, Jr., S. Raman, R. J. Dougan, R. W. Hoff*
- 12 Neutron-Induced Gamma-Ray Production in ^{57}Fe for Incident Neutron Energies Between 0.16 and 21 MeV *Z. W. Bell, J. K. Dickens, D. C. Larson, J. H. Todd*
- 33 The Solution of the Multigroup Neutron Transport Equation Using Spherical Harmonics *J. K. Fletcher*

TECHNICAL NOTES

- 47 Thermal Performance Modeling of Sphere-Pac Mixed Carbide Fast Reactor Fuel *M. J. Ades, K. L. Peddicord, S. D. Montgomery*
- 58 Real-Time Nonlinear Estimation of Fuel-Clad Gap Conductance *J. Louis Tylee*
- 61 Benchmark Values for Monoenergetic Neutron Transport in One-Dimensional Cylindrical Geometry with Linearly Anisotropic Scattering *R. Sanchez, B. D. Ganapol*
- 67 Two Vectorized Algorithms for the Solution of Three-Dimensional Neutron Diffusion Equations *Wm. A. Thomas, E. E. Lewis*

LETTERS TO THE EDITOR

- 72 On the Use of First-Order Perturbation Theory in Interface Shift Problems *J. V. Muralidhar Rao, S. M. Lee*
- 73 Reply to "On the Use of First-Order Perturbation Theory in Interface Shift Problems" *G. C. Pomraning, F. Rahnama*
- 74 Comments on "The Effects of Intracell Adjoint Flux Heterogeneity on First-Order Perturbation Reactivity Calculations" *Ehud Greenspan*

(Continued)

VOLUME 84, NUMBER 1, MAY 1983

CONTENTS

(Continued)

- 74** Response to "Comments on 'The Effects of Intracell
Adjoint Flux Heterogeneity on First-Order Perturbation
Reactivity Calculations' "
Kord S. Smith
- 75** **ANNOUNCEMENT OF CURRENT PUBLICATIONS**
