

# TECHNICAL REVIEWERS

## *Fusion Technology, 1997*

### A

Abdou, M., *University of California, Los Angeles*  
Anderson, J., *Los Alamos National Laboratory*

### B

Bangerter, R., *University of California, Berkeley*  
Basko, M., *Institute for Theoretical and Experimental  
Physics, Moscow–Russia*  
Bateman, G., *Princeton Plasma Physics Laboratory*  
Bathke, C., *Los Alamos National Laboratory*  
Behrisch, R., *Max-Planck-Institut für  
Plasmaphysik–Germany*  
Bell, R., *Princeton Plasma Physics Laboratory*  
Beshers, D., *Columbia University*  
Bluhm, H., *Forschungszentrum Karlsruhe–Germany*  
Bockris, J. O'M., *Texas A&M University*  
Borie, E., *Forschungszentrum Karlsruhe–Germany*  
Boucher, D., *ITER San Diego Joint Work Site*  
Brooks, J., *Argonne National Laboratory*  
Bush, R., *California State Polytechnic University*  
Bussard, R., *Energy/Matter Conversion Corporation*

### C

Callis, Richard, *General Atomics*  
Carlson, R., *Los Alamos National Laboratory*  
Carter, M., *Oak Ridge National Laboratory*  
Cerofolini, G., *SGS-Thomson Electronics–Italy*  
Chacón, L., *University of Illinois at Urbana-Champaign*  
Chang, S., *Taiwan*  
Chubb, S., *Naval Research Laboratory*

### D

Danos, M., *National Institute of Standards and Technology*  
Dash, J., *Portland State University*  
Davis, J., *McDonnell Douglas*  
DeNinno, A., *ENEA, Frascati Research Center–Italy*  
Deutsch, C., *Université de Paris, XI–France*  
de Voight, M., *Technische Universiteit Eindhoven–  
Netherlands*  
Dolan, T., *International Atomic Energy Agency–Austria*  
Donne, D., *Kernforschungszentrum Karlsruhe–Germany*

### E

Eagleton, R., *California State Polytechnic University*  
Einerhand, R., *Phillips Research Laboratories*  
El-Guebaly, J., *University of Wisconsin, Madison*  
Eliezer, S., *Instituto de Fusión Nuclear–Spain*  
Emmert, G., *University of Wisconsin, Madison*  
Enoeda, M., *Japan Atomic Energy Research Institute–  
Japan*

### F

Ferron, J., *General Atomics*  
Firestone, M., *van Haenel and Associates*  
Fisher, J., *Carpinteria, California*  
Fitzpatrick, R., *University of Texas at Austin*  
Fonck, R., *University of Wisconsin, Madison*  
Forsley, L., *JWK International Corporation*

### G

Gardès, D., *Université de Paris–France*  
Garribba, M., *Commission of the European Community–  
Luxembourg*  
Gierszewski, P., *Canadian Fusion Fuels Technology Project–  
Canada*  
Gilligan, J., *North Carolina State University*  
Greenspan, E., *University of California, Berkeley*

### H

Hagelstein, P., *Massachusetts Institute of Technology*  
Hansen, W., *Utah State University*  
Harries, D., *Oxford–United Kingdom*  
Hassanein, A., *Argonne National Laboratory*  
Hayashi, T., *Japan Atomic Energy Research Institute–  
Japan*  
Ho, S., *University of California, Los Angeles*  
Hodko, D., *Lynntech*  
Hora, H., *University of New South Wales–Australia*  
Horne, S., *Massachusetts Institute of Technology*  
Houlberg, W., *Oak Ridge National Laboratory*  
Howe, S., *Los Alamos National Laboratory*  
Humphreys, D., *General Atomics*  
Huysmans, G., *JET Joint Undertaking–United Kingdom*

## I

Itoh, S.-I., *Kyushu University–Japan*

## J

Jassby, D., *Princeton Plasma Physics Laboratory*  
 Jones, S., *Brigham Young University*  
 Jorne, J., *University of Rochester*

## K

Kamm, G., *U.S. Naval Research Laboratory*  
 Kammash, T., *University of Michigan*  
 Kessel, C., *Princeton Plasma Physics Laboratory*  
 Kim, Y., *Purdue University*  
 Kimura, T., *Japan Atomic Energy Research Institute–Japan*  
 Krakowski, R., *Los Alamos National Laboratory*  
 Kucherov, Y., *ENECO*  
 Kurihara, K., *Japan Atomic Energy Research Institute–Japan*

## L

Lenstra, D., *Vrije Universiteit–Netherlands*  
 Lerner, E., *Lawrence Plasma Physics*  
 Leuer, J., *General Atomics*  
 Linke, J., *Forschungszentrum Jülich–Germany*  
 Lister, J., *CRPP, Lausanne–Switzerland*  
 Lloyd, B., *United Kingdom Atomic Energy Authority–United Kingdom*  
 Longhurst, G., *Idaho National Engineering Laboratory*

## M

Malang, S., *Forschungszentrum Karlsruhe–Germany*  
 Maly, J., *Applied Science Consultants*  
 Mandrekas, J., *Georgia Institute of Technology*  
 McCarrick, J., *Massachusetts Institute of Technology*  
 McGrath, R., *Sandia National Laboratories*  
 McHarg, W., *General Atomics*  
 McKubre, M., *SRI International*  
 McLeod, J., *Los Alamos National Laboratory*  
 Merriman, B., *University of California, Los Angeles*  
 Mizuno, T., *Hokkaido University–Japan*  
 Moellendorff, U., *Forschungszentrum Karlsruhe–Germany*  
 Moir, R., *Lawrence Livermore National Laboratory*  
 Molvik, A., *Lawrence Livermore National Laboratory*  
 Morrow-Jones, J., *JAYCOR*  
 Murakami, M., *Osaka University–Japan*  
 Murray, R., *Sante Fe, New Mexico*

## N

Nagashima, A., *Japan Atomic Energy Research Institute–Japan*  
 Nave, M., *JET Joint Undertaking–United Kingdom*  
 Nishitani, T., *Japan Atomic Energy Research Institute–Japan*

## O

Oriani, R., *University of Minnesota*  
 Ortega, A., *Sandia National Laboratories*  
 Orth, C., *Lawrence Livermore National Laboratory*

## P

Parish, R., *Texas A&M University*  
 Parks, P., *General Atomics*  
 Patterson, J., *CETI*  
 Penzhorn, R., *Forschungszentrum Karlsruhe–Germany*  
 Perry, R., *Los Alamos National Laboratory*  
 Peterson, R., *University of Wisconsin, Madison*  
 Petra, M., *University of Illinois at Urbana-Champaign*  
 Porfiri, M., *ENEA CRE Frascati–Italy*  
 Post, R., *Lawrence Livermore National Laboratory*  
 Preparata, G., *University of Milan–Italy*

## R

Rebut, P., *Paris, France*  
 Reti, M., *Princeton Plasma Physics Laboratory*

## S

Sagawa, H., *Japan Atomic Energy Research Institute–Japan*  
 Saji, G., *ITER EDA Joint Central Team*  
 Schaffer, M., *General Atomics*  
 Scheid, W., *Justus-Leibig-Universität Giessen–Germany*  
 Schleisiek, K., *Forschungszentrum Karlsruhe–Germany*  
 Schultz, K., *General Atomics*  
 Seidel, K., *Technische Universität Dresden–Germany*  
 Sharapov, V., *Academy of Sciences–Russia*  
 Shaw, M., *Rutherford Appleton Laboratory–United Kingdom*  
 Singer, C., *University of Illinois at Urbana-Champaign*  
 Steenland, M., *University of Eindhoven–Netherlands*  
 Storms, E., *Sante Fe, New Mexico*  
 Strachan, J., *Princeton Plasma Physics Laboratory*  
 Sviatoslavsky, I., *University of Wisconsin, Madison*  
 Sze, D., *Argonne National Laboratory*

## T

Tabak, M., *Lawrence Livermore National Laboratory*  
 Takahashi, A., *Osaka University–Japan*  
 Taylor, G., *Princeton Plasma Physics Laboratory*  
 Thumm, Manfred, *Forschungszentrum Karlsruhe–Germany*

## V

Vaidya, S., *Bhabha Atomic Research Centre–India*  
 Van der Schaaf, B., *ECN–Petten–Netherlands*  
 Vigier, J., *Université Pierre et Marie Curie–France*  
 Vyas, P., *University of Oxford–United Kingdom*

**W**

Walker, J., *University of Illinois at Urbana-Champaign*  
Walker, M., *General Atomics*  
Welch, D., *Mission Research Corporation*  
Winter, J., *Forschungszentrum Jülich-Germany*  
Winterberg, F., *University of Nevada*  
Würz, H., *Forschungszentrum Karlsruhe-Germany*

**Y**

Yabe, T., *Tokyo Institute of Technology-Japan*  
Yakovenko, Y., *Academy of Sciences-Ukraine*  
Yoshida, H., *ITER, Naka Joint Work Site-Japan*  
Yoshino, R., *Japan Atomic Energy Research Institute-Japan*

Editor's note: The editors are grateful to all the reviewers for their assistance and apologize for any omissions.
