

Fusion Science and Technology

CONTENTS / MAY 2002—VOL. 41, NO. 3,
PART 2 (pp. 303–1174)

Proceedings of the SIXTH INTERNATIONAL CONFERENCE ON TRITIUM SCIENCE AND TECHNOLOGY

Tsukuba, Japan
November 12–16, 2001

xiii Comments / *Nerman A. Uckan*

xv Preface: Sixth International Conference on Tritium Science and Technology /
S. Tanaka, Y. Ichimasa, S. Konishi

PLENARY

- 305 Activities of Tritium Studies in Japan / *S. Tanaka, M. Nishikawa, Y. Ichimasa, M. Nishi*
- 314 Overview of Canadian Activities in Tritium / *J. M. Miller*
- 319 The Progress of Tritium Science and Technology in China / *Sun Ying*
- 325 Tritium Activities in Germany / *Sigurd Gross*
- 329 Tritium Activities in Korea / *S. Paek, D. H. Ahn, H. Lee, H. Chung*
- 334 Tritium Activities in Russia / *Arkadiy A. Yukhimchuk*
- 339 U.S. Tritium Activities / *R. Scott Willms, Robert Rabun*
- 346 Enhancement of Accident Consequence Assessment Model for Tritium UFOTRI to Include a Wider Variety of Human Foodstuffs / *W. Raskob*
- 351 Tritium Beta Decay and the Neutrino Mass: A Key to New Physics / *H. Blümer*
- 356 Tritium Handling Experience in 165MWE Power Generating Station, Fugen / *Takuya Kitabata*

PROPERTIES AND REACTIONS

- 363 Nuclear Fusion Rates in the $(t\mu)^+$ Molecule / *Hiroshi Kudo, Hiroki Shibata, Yasushi Kino*
- 368 RFNC-VNIIEF Tritium Technologies for Fundamental Science / *Radiy I. Il'kaev, Valentin N. Lobanov, Arkadiy A. Yukhimchuk*

(Continued)

CONTENTS / MAY 2002—VOL. 41, NO. 3, PART 2

(Continued)

- 373 A Study of Beta-Decay Induced Reaction on T₂O-CO₂ System / *Yasuhisa Oya, Wataru Shu, Takumi Suzuki, Takumi Hayashi, Shigeru O'Hira, Masataka Nishi, Koichi Iinuma*
- 378 Interaction of Tritium with Polyethylene / *Kimiko Ema, Yoshinobu Izumi*
- 382 Influence of the Fourth Component on Tritium Behaviour in Li-Pb Melts / *V. P. Krasin, I. E. Lyublinski*
- 386 Investigation of Adsorption and Desorption Mechanism of Water on Material Surface / *Kunihiko Chiba, Rumi Sato, Toshiaki Yoneoka, Satoru Tanaka*

BIOLOGY

- 393 Organically Bound Deuterium in Rice and Soybean After Exposure to Heavy Water Vapor as a Substitute for Tritiated Water / *Michiko Ichimasa, Caiyun Weng, Tetsuki Ara, Yusuke Ichimasa*
- 399 Behavior of Tritium in the Mouse Body After Oral Intake and Estimation of the Absorbed Dose / *Masahiro Saito*
- 404 Development of a New Detritiation System Using Microorganisms / *Noriyuki Momoshima, Hideki Kakiuchi*
- 409 Application of Lichens for Assessment of Atmospheric Pollution by Tritium / *A. V. Golubev, L. F. Belovodsky, V. N. Golubeva, T. A. Kosheleva, V. F. Kuznetsova, S. V. Mavrin, Kris Surano, William Hoppes*
- 413 Studies of Mutagenesis Caused by Low Dose Rate Tritium Radiation Using a Novel Hyper-Sensitive Detection System / *Hiroshi Tauchi, Michiko Ichimasa, Yusuke Ichimasa, Takahiro Shiraishi, Kenichi Morishima, Shinya Matsuura, Kenshi Komatsu*
- 417 Transfer of Tritium from ³H-Thymidine, ³H-Leucine, ³H-Glucose, and Tritiated Water into Mouse Tissue DNA During Long-Term Exposure / *Y. Ichimasa, H. Takano, T. Uda, M. Ichimasa*
- 422 HT Oxidation in Soils in Ibaraki and Isolation, Identification of HT Oxidizing Soil Bacteria / *M. Komuro, Y. Ichimasa, M. Ichimasa*
- 427 Conversion Rate of HTO to OBT in Plants / *M. Atarashi-Andoh, H. Amano, M. Ichimasa, Y. Ichimasa*
- 432 Evaluation of Tritium Behavior in Man Using a Three-Compartment Model / *Shigeo Yoshida, Isao Murata, Akito Takahashi*
- 437 Protective Effect of Tea Catechins on the DNA Scission Induced in Tritiated Water / *Y. Ohashi, M. Konishi, H. Yoshioka, K. Yoshinaga, H. Yoshioka*
- 442 Scavenging Activity of Tea Catechins on Hydroxyl Radical Formed in Tritiated Water Studied by the Solid-State Spin Trapping Method / *Mariko Konishi, Yasunori Ohashi, Hiroe Yoshioka, Hisashi Yoshioka*
- 445 Estimation of Internal Dose by Blood Analyses for Exposure to Tritium in Various Chemical Forms, *Hiroshi Takeda, Shoichi Fuma, Kiriko Miyamoto, Kei Yanagisawa, Nobuyoshi Ishii, Noriko Kuroda*

(Continued)

CONTENTS / MAY 2002—VOL. 41, NO. 3, PART 2

(Continued)

ENVIRONMENT

- 453** Environmental Tritium Concentrations due to Continuous Atmospheric Sources / *P. A. Davis, T. G. Kotzer, W. J. G. Workman*
- 458** Complex Model to Study Long Term Environmental Tritium Behavior / *A. V. Golubev, L. F. Belovodsky, S. V. Mavrin, A. Yu. Aleinikov, A. V. Stengach, M. M. Khabibulin, A. N. Vereshchaga, I. L. Kharkhordin, V. G. Rumynin*
- 464** Numerical Modeling and Laboratory Experiments of Tritium Transport in Unsaturated Soil / *Jun Koarashi, Takao Iida, Mariko Atarashi-Andoh, Hiromi Yamazawa, Hikaru Amano*
- 470** ETDOS: A Code to Simulate Tritium Transfer in the Environment and to Evaluate Dose / *M. Atarashi-Andoh, H. Amano, T. Takahashi*
- 474** Studies of HTO Washout and Deposition in the Vicinity of Emission Source II: Model—Experiment Intercomparison / *A. V. Golubev, A. Y. Aleinikov, V. N. Golubeva, M. M. Khabibulin, V. P. Kovalenko, I. I. Solomatin, S. E. Misatyuk, S. V. Mavrin, T. A. Kosheleva, Y. A. Belot*
- 478** Studies of HT Deposition to Unsaturated Soil / *A. V. Golubev, M. V. Glagolev, V. N. Golubeva, S. V. Demina, N. T. Kazakovsky, S. E. Misatyuk, S. V. Mavrin, Y. A. Belot*
- 483** An Application of a Transfer Model to the Drainage System of Tritium in a River Basin in the Vicinity of a Nuclear Site / *Kiriko Miyamoto, Yoshikazu Inoue, Tetsuo Iwakura, Hiroshi Takeda, Shoichi Fuma, Kei Yanagisawa, Nobuyoshi Ishii*
- 488** HTO Emission from Contaminated Surfaces and Distribution in Environmental Media Around Nuclear Facilities / *Hikaru Amano*

ANALYSIS AND MONITORING

- 495** Tritium Activity Determination in a Wastes Drum by Helium-3 Ingrowth Method / *Hubert Pialot, David Demange, Brice Ravat, Manuel Grivet*
- 500** Monitoring Tritium Activity on Surfaces: Recent Developments / *C. R. Shmayda, W. T. Shmayda, N. P. Kherani*
- 505** Quantitative Measurement of Surface Tritium by β -Ray-Induced X-Ray Spectrometry (BIXS) / *Masao Matsuyama, Tadayuki Murai, Kuniaki Watanabe*
- 510** Separation of Tritium Compounds Using Porous VYCOR Glass Tube Wall / *Masatoshi Ohta, Masami Fukui*
- 515** Use of Gas Chromatography in the Tritium Laboratory Karlsruhe / *R. Lässer, M. Glugla, S. Grünhagen, K. Günther, R.-D. Penzhorn, J. Wendel*
- 520** The Analytical System of the ITER Tritium Fuel Processing Plant / *R. Lässer, M. Glugla, P. Schuster, T. Hayashi, H. Yoshida*
- 525** Tritium-in-Air "Bubbler" Samplers and Internal Radiation Doses at JET / *D. Campling, P. Macheta, B. Patel, P. Schofield*

(Continued)

CONTENTS / MAY 2002—VOL. 41, NO. 3, PART 2

(Continued)

- 528 Surface Tritium Detection by Imaging Plate Technique / *T. Tanabe, K. Miyasaka, T. Saze, K. Nishizawa, T. Kobayashi, T. Hayashi, M. Nishi*
- 532 Metal Container Instead of Glass Bulb in Tritium Measurement by Helium-3 Ingrowth Method / *L. Palcsu, M. Molnár, Zs. Szántó, É. Svingor, I. Futó*
- 536 Observation of Tritium Distribution in Pure Vanadium and V-5 mol%Fe Alloy by Tritium Radioluminography / *Hideyuki Saitoh, Hirofumi Homma, Youichi Noya, Toshiyuki Ohnishi*
- 542 A Summary of Tritium In-Bed Accountability for 1500 Liter LaNi_{4.25}Al_{0.75} Storage Beds / *J. E. Klein*
- 551 In Situ Imaging and Quantification of Tritium Surface Contamination via Coherent Fiber Bundle / *Charles A. Gentile, John J. Parker, Stewart J. Zweben*
- 555 Tritium Distribution Measurement of FNS Tritium Targets by Imaging Plate / *Chuzo Kutsukake, Masakazu Seki, Shigeru Tanaka, Yoshikazu Oginuma, Yuichi Abe, Michinori Yamauchi*

DEVICE, FACILITY, AND OPERATION

- 563 Development and Experience of Tritium Control in Heavy Water Reactor "Fugen" / *Koichi Kitamura, Takuya Kitabata, Akira Matsushima*
- 568 The Safety and Tritium Applied Research Facility / *R. A. Anderl, D. A. Petti, K. A. McCarthy, G. R. Longhurst*
- 573 Status and Perspectives of Tritium Work Performed at the Karlsruhe Research Center / *S. Gross, Ch. Day, M. Glugla, W. Raskob*
- 578 Long Term Operation of the JET Facilities' Active Gas Handling System / *P. D. Brennan*
- 583 Performance of a Large-Scale Glovebox-Stripper System / *L. K. Heung, M. L. Rhoden*
- 588 Decontamination Robot for Tritiated Contaminants / *Hajime Aoyama, Tetsutaro Seki, Kazuyoshi Ishikawa, Shunsuke Hosokawa, Takeshi Itoh, Katsuyoshi Tatenuma, Masao Matsuyama, Kuniaki Watanabe*
- 593 Operation Results on Safety Systems of Tritium Process Laboratory in Japan Atomic Energy Research Institute / *Masayuki Yamada, Toshihiko Yamanishi, Wataru Shu, Takumi Suzuki, Hirofumi Nakamura, Yoshinori Kawamura, Yasunori Iwai, Kazuhiro Kobayashi, Kanetsugu Isobe, Masataka Nishi*
- 598 Research into Vacuum and Dynamic Characteristics of Cryopanel for Fusion Reactor Ultra-High Vacuum Pumps / *A. A. Vedeneev, I. A. Abramov, N. T. Kazakovskiy, V. N. Lobanov, S. A. Pimanikhin, G. L. Saksganskiy*
- 602 Tritium Inventories in the High Vacuum Pumps of ITER / *Chris Day, August Mack, Manfred Glugla, David K. Murdoch*
- 607 Operation, Maintenance and Decontamination of the JET Torus Access Facilities / *P. Edwards, N. Davies, A. Loving, D. Neilson, B. Patel*

(Continued)

CONTENTS / MAY 2002—VOL. 41, NO. 3, PART 2

(Continued)

- 612 Tritium Experience in JT-60 DD Plasma Operation / *Akira Oikawa, Naoyuki Miya, Kozo Kodama, Takashi Umehara, Takeshi Yamazaki, Kei Masaki, Isamu Akiyama, Kozo Matsushita, Nobuyuki Hosogane*
- 617 Post Service Examination of Tritium Process Components from the Tritium Laboratory Karlsruhe / *C. J. Caldwell-Nichols, S. Gross, R.-D. Penzhorn, M. Glugla, R. Lässer, K. H. Simon, T. L. Le*
- 621 Use of Ferrofluidic Seals in the Design of Tritium Compatible Pumps / *R. Lässer, D. K. Murdoch, R.-D. Penzhorn*
- 626 Detritiation Processes Needed for JET Operation and Their Wider Applicability / *A. C. Bell, J. Williams, J. D. Neilson, A. Perevezentsev*

SAFETY AND SAFETY SYSTEM

- 635 Deuterium and Tritium Safety Issues in IFE Target Fabrication / *L. C. Cadwallader, D. A. Petti*
- 642 Safety Design Concepts for ITER-Tritium Facility / *S. O'Hira, E. Tada, K. Hada, Y. Neyatani, T. Maruo, M. Hashimoto, T. Araki, K. Nomoto, D. Tsuru, T. Ishida, Y. Goto, T. Tsunematsu*
- 647 Tritium Confinement Demonstration Using Caisson Assembly for Tritium Safety Study at TPL/JAERI / *Takumi Hayashi, Kazuhiro Kobayashi, Yasunori Iwai, Noriko Asanuma, Shigeru O'Hira, Masataka F. Nishi*
- 652 Preliminary Tritium Safety Analysis and Problems with Obtaining Public Consent to Deuterium Plasma Experiments in the LHD / *T. Uda, S. Tanahashi, K. Nishimura, K. Shinotsuka, O. Motojima*
- 658 Calculation Code of System Effect Using Serial Reactor Model / *H. Oka, M. Nishikawa, T. Takeishi, J. Yamaguchi, M. Nishi, T. Hayashi, K. Kobayashi*
- 663 Study on Selective Separation of Tritium Using a Hollow-Filament Type Polyimide Membrane Module—Its Application to Tritium Monitoring in High-Energy Accelerator Facilities / *Eriko Tega, Seishi Akahori, Kenji Okuno, Shinichi Sasaki, Takenori Suzuki, Kenjiro Kondo*
- 668 Study on Sudden Loss of Cryogenic Coolant Accident Happened in the Hydrogen Isotope Separation System for Fusion Reactor / *Y. Iwai, H. Nakamura, S. Konishi, M. Nishi, R. S. Willms*
- 673 Tritium Behavior Study for Detritiation of Atmosphere in a Room / *K. Kobayashi, T. Hayashi, Y. Iwai, N. Asanuma, M. Nishi*
- 678 Design of Atmosphere Detritiation System for ITER / *S. Hirata, T. Kakuta, T. Hayashi, K. Kobayashi, M. Yamada, M. Nishi*

DECONTAMINATION AND WASTE

- 685 Tritiated Water on Molecular Sieve Without Hydrogen Production / *R. Tom Walters, Kevin Sessions, C. Gentile, L. Ciebiera*

(Continued)

CONTENTS / MAY 2002—VOL. 41, NO. 3, PART 2

(Continued)

- 690** Tritium Decontamination of TFTR D-T Plasma Facing Components Using an Ultra Violet Laser / *W. M. Shu, Y. Kawakubo, S. O'Hira, Y. Oya, T. Hayashi, H. Nakamura, Y. Iwai, M. F. Nishi, C. A. Gentile, C. H. Skinner, S. Langish, G. Guttadora, A. Carpe, K. M. Young*
- 695** Steel Detritiation by Melting with Gas Bubbling / *S. Rosanvallon, J. L. Courouau, G. Marbach, W. Gulden*
- 700** Oxidative Decontamination of Tritiated Materials Employing Ozone Gas / *Charles A. Gentile, John J. Parker, Gregory L. Guttadora*
- 706** Screen Test of Tritium Recovery from Stainless Steel Type 316 / *A. Perevezentsev, K. Watanabe, M. Matsuyama, Y. Torikai*
- 711** An Overview of the Semi-Empirical Kinetic Model of the $O^+-H^+ \rightarrow C$ Reaction System / *Allen Y. K. Chen, A. A. Haasz, J. W. Davis*
- 716** Tritium Removal by Laser Heating and Its Application to Tokamaks / *C. H. Skinner, C. A. Gentile, G. Guttadora, A. Carpe, S. Langish, K. M. Young, M. Nishi, W. Shu*
- 721** Treatment of Tritiated Solvents / *W. T. Shmayda, A. Bruggeman, J. Braet, S. Vanderbiesen*
- 726** Recovery of Tritium from Pharmaceutical Mixed Waste Liquids / *W. T. Shmayda, R. D. Gallagher*
- 731** Exposure to Tritiated Moisture and Decontamination of Components for ITER Remote Maintenance Equipment / *Takeshi Higashijima, Kenjiro Obara, Kiyoshi Shibamura, Koichi Koizumi, Kazuhiro Kobayashi, Yasuhisa Oya, Wataru Shu, Takumi Hayashi, Masataka Nishi*
- 736** Effect of Water Vapor on Tritium Decontamination of Stainless Steel 316 / *Yuji Torikai, A. N. Perevezentsev, Masao Matsuyama, Kuniaki Watanabe*
- 741** Developmental Study of Dry Decontamination for Tritiated Wastes / *Takeshi Itoh, Satoshi Ueda, Katsuyoshi Tatenuma, Yuji Torikai, Masao Matsuyama, Kuniaki Watanabe*
- 747** Contamination of Stainless Steel Type 316 by Tritium / *A. Perevezentsev, K. Watanabe, M. Matsuyama, Y. Torikai*

HYDRIDE AND STORAGE

- 753** Design of Metal Hydride Vessels for Processing Tritium / *L. Kit Heung*
- 758** A Surface Analytical Study on Poisoning of $LaNi_{4.7}Al_{0.3}$ by CO / *Sang Ge, Sun Ying, Tu Mingjing, Luo Xuejian, Wu Sheng, Luo Wenhua, Liang Hong Wei, Su Yongjun*
- 764** A 1600 Liter Tritium Hydride Storage Vessel / *J. E. Klein*
- 776** Isotopic Exchange for Metal Hydride Bed Disposal / *J. E. Klein, J. R. Wermer*
- 782** Development of a Passively Cooled, Electrically Heated Hydride (PACE) Bed / *J. E. Klein, J. R. Brenner, E. F. Dyer*

(Continued)

CONTENTS / MAY 2002—VOL. 41, NO. 3, PART 2

(Continued)

- 788 Properties of Titanium Sponge Bed for Tritium Storage / *S. Paek, D. H. Ahn, K. R. Kim, H. Chung*
- 793 The Behaviour of Zirconium-Cobalt as a Material for Tritium Storage / *U. Besserer, R.-D. Penzhorn, R. Brandt*
- 797 Tritium Accounting by In Situ Calorimetry of the JET Uranium Containers / *A. Perevezentsev, J. Hemmerich*
- 801 Development of ZrCo Beds for ITER Tritium Storage and Delivery / *T. Hayashi, T. Suzuki, S. Konishi, T. Yamanishi, M. Nishi, K. Kurita*

DESIGN AND MODEL

- 807 JUPITER-II Flibe Tritium/Chemistry and Safety Experimental Program / *D. A. Petti, R. A. Anderl, G. R. Smolik, D.-K. Sze, T. Terai, S. Tanaka*
- 812 Dosimetric Effects in Atmospheric Diffusion of HT and HTO for Different Inertial Fusion Reactor Concepts / *Marta Velarde, J. Manuel Perlado, Luis A. Sedano*
- 817 Tritium Issues Toward Fusion Plants / *S. Konishi, K. Tobita, S. Nishio, H. Okada, R. Kurihara*
- 821 Dedicated Facility and Glovebox for Tritium Recovery from Carbon Flakes / *A. Perevezentsev, A. Bell, P. D. Brennan, C. Gibbons, J. Hemmerich, S. Knipe, A. Miller, M. Stead, P. Walsh, J. Yorkshades*
- 826 Tritium Fuel Cycle for Muon-Catalyzed Intense Neutron Source (MC INS) / *Arkadiy A. Yukhimchuk, Vladimyr A. Arkhangel'sky*
- 831 Potential of Fusion Energy in the Context of Tritium Supply / *K. Tokimatsu, Y. Asaoka, K. Okano, S. Konishi*
- 835 Time Dependent Tritium Inventories of a Fusion Reactor / *Isao Aoki, Satoshi Konishi, Ryouichi Kurihara, Yasunori Iwai, Masataka Nishi*
- 840 Advanced Tritium Recovery System / *H. Brunnader, W. T. Shmayda, D. R. Harding, L. D. Lund, R. Janezic*
- 845 Removal and Control of Tritium in Lithium Target for International Fusion Materials Irradiation Facility (IFMIF) / *H. Nakamura, M. Ida, M. Sugimoto, T. Yutani, H. Takeuchi*
- 850 Tritium Processing and Tritium Laboratory in the International Fusion Materials Irradiation Facility (IFMIF) / *Toshiaki Yutani, Hiroo Nakamura, Masayoshi Sugimoto, Mizuho Ida, Hiroshi Takeuchi*
- 854 The Storage and Delivery System of the ITER Tritium Fuel Processing Plant / *R. Lässer, L. Dörr, M. Glugla, R.-D. Penzhorn, T. Hayashi, D. K. Murdoch, H. Yoshida*
- 859 Development of Electrochemical Hydrogen Pump Under Vacuum Condition for a Compact Tritium Gas Recycling System / *M. Kato, T. Itoh, H. Sugai, Y. Kawamura, T. Hayashi, M. Nishi, M. Tanase, T. Matsuzaki, K. Ishida, K. Nagamine*

(Continued)

CONTENTS / MAY 2002—VOL. 41, NO. 3, PART 2

(Continued)

MATERIAL INTERACTION AND PERMEATION

- 867** Characterization of Carbon Tritide Particles in a Tokamak Fusion Reactor / *Yung Sung Cheng, Yue Zhou, Charles A. Gentile, Charles H. Skinner*
- 872** Hydrogen Isotopes Permeability in Eurofer 97 Martensitic Steel / *A. Aiello, I. Ricapito, G. Benamati, R. Valentini*
- 877** Surface Distribution of Tritium on Graphite Tiles of Divertor Area in JT-60U / *T. Tanabe, K. Miyasaka, K. Sugiyama, K. Masaki, K. Kodama, N. Miya*
- 882** Superpermeability in Fusion Technology: Tritium Accumulation and Compression / *Alexander I. Livshits, Yuji Hatano, Kuniaki Watanabe*
- 887** Study on Deuterium Permeation Through Copper and F82H Low Activation Steel by Ion Implantation / *Hirofumi Nakamura, Wataru Shu, Takumi Hayashi, Shigeru O'Hira, Masataka Nishi, Masayasu Sugisaki*
- 892** A Study on Sorption of Tritium on Some Metals / *Xiaohua Cao, Benfu Yang, Huajin Tan, Jingping Wan, Changyong Jiang*
- 897** Trapping of Hydrogen in Molybdenum Bombarded with Helium-3 Ions / *Ikuji Takagi, Seiichi Watanabe, Shinichi Nagaoka, Kumio Higashi*
- 902** Deuterium Retention and Diffusion in ETP-10 Graphite Exposed to RF Plasma at Room Temperature / *Ikuji Takagi, Ryoutarou Sugiura, Kazushi Shirai, Kunio Higashi*
- 907** Release of Hydrogen Isotopes from Boron Coated Carbon Tiles of JT-60U / *Kaname Kizu, Junichi Yagyu, Yoshitaka Gotoh, Takashi Arai, Naoyuki Miya*
- 912** Diffusion Coefficient of Tritium in Ni-Based Alloy / *Kan Sakamoto, Masayasu Sugisaki*
- 915** Observation of Hydrogen Distribution in Oxidized Zircaloy-2 with Tritium Microautoradiography / *Hitoshi Hanada, Yuji Hatano, Kanetsugu Isobe, Kan Sakamoto, Masayasu Sugisaki*
- 919** Study of Carbon Deposition Effect on Hydrogen Permeation Through Palladium Membrane / *S. Tominaga, A. Busnyuk, T. Matsushima, K. Yamaguchi, F. Ono, T. Terai, M. Yamawaki*
- 924** Tritium and Deuterium Retention in Graphite Limiters in TEXTOR / *T. Tanabe, K. Miyasaka, M. Rubel, V. Philipps*
- 929** "Prometheus" Setup for Study of Tritium Superpermeation / *A. A. Yukhimchuk, R. K. Musyeav, Yu. I. Vinogradov, S. K. Grischechkin, B. S. Lebedev, V. N. Alimov, M. E. Notkin, A. O. Busnyuk, A. I. Livshits*
- 934** Surface Characterization of TFTR First Wall Graphite Tiles Used During DT Operations / *Mark T. Paffett, R. Scott Willms, Charles A. Gentile, Charles H. Skinner*
- 939** Development of Ceramic Coating as Tritium Permeation Barrier / *M. Nakamichi, H. Kawamura, T. Teratani*

(Continued)

CONTENTS / MAY 2002—VOL. 41, NO. 3, PART 2

(Continued)

- 943** Deuterium Retention of Co-Deposited Carbon Dust / *H. Yoshida, M. Taniguchi, K. Yokoyama, Y. Hirohata, M. Akiba, T. Hino*
- 948** Tritium Transport Characterization in Martensitic Steels from Isotopic Effect Studies / *G. A. Esteban, F. Legarda, L. A. Sedano, A. Perujo*
- 954** Tritium Release from Silica Glass / *T. Tanifuji, S. Jitsukawa, S. Nasu, A. Moon, K. Mori, S. Nishikawa, M. Yamanaka, Y. Izawa*
- 958** Evaluation of Tritium Permeation in Solid Breeder Blanket Cooled by Supercritical Water / *Y. Kosaku, Y. Yanagi, M. Enoeda, M. Akiba*
- 962** Effect of Carbon and Boron on Diffusivity of Deuterium in Molybdenum and Tungsten / *Tetsuji Noda, Hiroshi Araki, Hiroshi Suzuki*

PURIFICATION AND CHEMICAL PROCESS

- 969** Development of Specific Catalysts for Detritiation of Gases by Counter Current Isotopic Swamping / *M. Glugla, S. Gross, R. Lässer, T. L. Le, D. Niyongabo, K. H. Simon*
- 974** Mathematical Comparison of Three Tritium System Effluent HTO Cleanup Systems / *R. Scott Willms, Charles Gentile, Keith Rule, Chit Than, Philip Williams*
- 981** Methane Decomposition Reaction on a ZrNi Alloy / *Takao Kawano, Yoichi Sakuma, Masatoshi Ohta, Toshiki Kabutomori, Mamoru Shibuya*
- 988** Demonstration of Fuel Cleanup System Consisting of Electrolytic Reactor and Tubular Reservoir Tank for Fusion Reactors / *K. Isobe, H. Imaizumi, T. Hayashi, S. Konishi, M. Nishi*
- 993** An In Situ Tritium-Deuterium Gas-Purification System for Muon Catalyzed Fusion Experiments at the RIKEN-RAL Muon Facility / *T. Matsuzaki, K. Nagamine, K. Ishida, M. Kato, H. Sugai, M. Tanase, G. H. Eaton*
- 998** SAES® ST909 Bench Scale Methane Cracking Tests / *J. E. Klein*
- 1004** Preliminary Experiments on the Continuous Separation of Plasma Exhaust Gas / *S. Tanzawa, S. Hiroki, T. Abe*
- 1009** Parametric Studies and Scale-Up of a Cold Trap in the Tritium Extraction Loop of a HCPB Breeder Test Blanket for ITER / *N. Bekris, E. Hutter, J. Rodolausse*
- 1014** Design and Commissioning of Upgraded Impurity Processing System at the JET Facilities / *A. Perevezentsev, A. Bell, P. D. Brennan, C. Gibbons, J. Hemmerich, S. Knipe, R. Stagg, J. Yorkshades*
- 1018** Overview of ITER Fuel Cycle R&D and Design Activities by the European Home Team / *David Murdoch, Ch. Day, M. Glugla, R. Lässer, A. Mack, R.-D. Penzhorn, A. Busigin, K. Maynard, O. Kveton*

BLANKET MATERIAL AND PROCESS

- 1025** Out-Pile Tritium Release Experiment from Various Ceramic Breeder Materials in KUR / *M. Nishikawa, K. Munakata, T. Takeishi, A. Baba, T. Kavagoe, S. Beloglazov, N. Nakashima, K. Hashimoto, Y. Yokoyama, K. Okuno, Y. Morimoto, H. Moriyama, K. Kawamoto*

(Continued)

CONTENTS / MAY 2002—VOL. 41, NO. 3, PART 2

(Continued)

- 1030** Tritium and Lithium Diffusion Mechanism in Neutron-Irradiated β - $^6\text{LiAl}$ / *H. Sugai, M. Yahagi, H. Hamanaka, K. Kuriyama, T. Hshimoto*
- 1035** Transport Properties of Hydrogen Isotope Gas Mixture Through Ceramic Protonic Conductor / *Yoshinori Kawamura, Satoshi Konishi, Masataka Nishi, Toshiya Kakuta*
- 1040** Tritium Measurements for ^6Li -Enriched Li_2TiO_3 Breeding Blanket Experiments with D-T Neutrons / *Axel Klix, Kentaro Ochiai, Yasuaki Terada, Yuichi Morimoto, Michinori Yamauchi, Junichi Hori, Takeo Nishitani*
- 1044** Isotope Exchange Reaction Between Gaseous Hydrogen and Tritium on Li_2TiO_3 Grain Surface / *N. Nakashima, S. Beloglazov, K. Hashimoto, M. Nishikawa*
- 1049** Modeling of Tritium Release from Irradiated Li_2ZrO_3 / *S. Beloglazov, M. Nishikawa, T. Tanifuji*
- 1054** Mass-Transport Properties to Estimate Rates of Tritium Recovery from Flibe Blanket / *Satoshi Fukada, Masabumi Nishikawa, Akio Sagara, Takayuki Terai*
- 1059** Development of Catalyst for Recovery of Tritium / *Kenzo Munakata, Satoshi Yamatsuki, Yoshihiro Yokoyama, Seigo Kanjo, Dmitri Ianovski, Yamato Asakura, Tatsuhiko Uda*
- 1064** Isotope Exchange Reaction over Improved Ceramic Tritium Breeder with Catalytic Function / *Kenzo Munakata, Akinori Koga, Yoshihiro Yokoyama, Seigo Kanjo, Satoshi Yamatsuki, Dmitri Ianovski, Masabumi Nishikawa*
- 1069** Conceptual Design of the Blanket Tritium Recovery System for the Prototype Fusion Reactor / *T. Kakuta, S. Hirata, S. Mori, S. Konishi, Y. Kawamura, M. Nishi, Y. Ohara*

ISOTOPE SEPARATION

- 1077** Design and Operational Experience with a Pilot-Scale CECE Detritiation Process / *J. M. Miller, S. L. Celovsky, A. E. Everatt, W. R. C. Graham, J. R. R. Tremblay*
- 1082** Hydrogen Isotope Enrichment Using Multi-Column Palladium Bed / *Satoshi Fukada, Samsun-Baharin Mohamad, Hiroshi Fujiwara, Masabumi Nishikawa*
- 1087** Investigation of Separation Performances of Various Isotope Exchange Catalysts for the Deuterium-Hydrogen System / *I. Cristescu, Ioana-R. Cristescu, U. Tamm, R.-D. Penzhorn, C. J. Caldwell-Nichols*
- 1092** Separation of Hydrogen Isotopes by Thermal Cycling Absorption Process: An Experimental Device / *D. Ducret, C. Laquerbe, A. Ballanger, J. Steimetz, V. Porri, J. P. Verdin, T. Pelletier*
- 1097** The CECE Experimental Industrial Plant for Reprocessing of Tritiated Water Wastes / *I. A. Alekseev, S. D. Bondarenko, O. A. Fedorchenko, A. I. Grushko, S. P. Karpov, K. A. Konoplev, V. D. Trenin, E. A. Arkhipov, T. V. Vasyanina, T. V. Voronina, V. V. Uborsky*
- 1102** Measurement of Pressure Drop and HETP in Columns Packet with Different Hydrophobic Catalysts for Tritium Isotopic Exchange Between Water and Hydrogen / *A. Perevezentsev, A. Bell, B. M. Andreev, E. P. Magomedbekov, Yu. S. Pak, M. B. Rozenkevich, Yu. A. Sukharovskii*

(Continued)

CONTENTS / MAY 2002—VOL. 41, NO. 3, PART 2

(Continued)

- 1107** Difference in HETP and HTU for Isotopic Mixtures of Protium-Tritium and Protium-Deuterium in Isotopic Exchange Between Water and Hydrogen on Hydrophobic Catalyst / *A. Perevezentsev, B. M. Andreev, E. P. Magomedbekov, Yu. S. Pak, M. B. Rozenkevich, Yu. A. Sakharovskii*
- 1112** The Displacement of Hydrogen-Deuterium at High Flow Rate in Palladium Particle Bed / *Gan Li, Guangda Lu, Guoqiang Jiang*
- 1116** Experimental Study for Parameters Affecting Separation Factor of Cryogenic Wall Thermal Diffusion Column / *Tadaaki Arita, Toshihiko Yamanishi, Yasunori Iwai, Masataka Nishi, Ichiro Yamamoto*
- 1121** Optimization of a Thermal Cycling Absorption Process Design by Dynamic Simulation / *C. Laquerbe, D. Ducret, A. Ballanger, T. Pelletier, O. Baudouin, P. Sere Peyrigain*
- 1126** The Water Detritiation System of the ITER Tritium Plant / *Y. Iwai, Y. Misaki, T. Hayashi, T. Yamanishi, S. Konishi, M. Nishi, R. Ninomiya, S. Yanagimachi, S. Senrui, H. Yoshida*
- 1131** Steady-State Computer Modeling of a Recent H-D-T Cryogenic Distillation Experiment at TSTA / *Jennifer S. Young, Robert H. Sherman, R. Scott Willms, Yasunori Iwai, Masataka Nishi*
- 1137** Demonstration of Very High Detritiation Factors with a Pilot-Scale CECE Facility / *W. R. C. Graham, A. E. Everatt, J. R. R. Tremblay, J. M. Miller, D. A. Spagnolo*
- 1142** Hydrogen Isotope Separation Factors on Palladium Alloy Membranes / *D. L. Luo, C. S. Shen, D. Q. Meng*
- 1146** Development of a Advanced Column Material for Hydrogen Isotope Separation at Room Temperature / *S. Ueda, Y. Nanjou, T. Itoh, K. Tatenuma, M. Matsuyama, K. Watanabe*
- 1151** Development of a Column Packing Material for Gas Chromatographic Separation of Hydrogen Isotopes / *Y. Nanjou, S. Ueda, T. Itoh, K. Tatenuma, M. Matsuyama, K. Watanabe*
- 1155** Upgrade of the Isotope Separation System at the Tritium Laboratory Karlsruhe / *L. Doerr, J. Dehne, M. Glugla, H. Kissel, R.-D. Penzhorn, S. Welte, J. L. Hemmerich*
- 1160** Isotopic Enrichment of Tritiated Water by a Bipolar Electrolysis Process / *S. Heinze, D. Ducret, J.-P. Verdin, T. Pelletier*
