

# Fusion technology™

## CONTENTS / SEPTEMBER 1984—VOL. 6, NO. 2, PART 1

### OVERVIEW

- 145 Status and Plans for U.S. and International Radio-Frequency Experiments on Fusion Devices / *Owen C. Eldridge, Jr., Daniel J. Hoffman, Peter J. Kortman*

### TECHNICAL PAPERS

#### PLASMA ENGINEERING

- 174 Covariant Electrodynamics of Conducting Media / *Horst E. Wilhelm*
- 181 TRAIL—A Tokamak Rail Gun Limiter / *Wen-Shi Yu, James R. Powell, John A. Fillo, John L. Usher*

#### BLANKET ENGINEERING

- 195 Direct Method for the Estimation of Modeling Perturbations in the Simulation of Fusion Blankets / *Magdi Ragheb, Otto Lazareth*
- 225 (Deuterium-Deuterium)-Driven Experimental Hybrid Blankets and Their Neutronic Analyses / *Anil Kumar, Sümer Şahin*
- 240 Tritium Breeding Benchmark Calculations for a  $\text{Li}_{17}\text{Pb}_{83}$  Blanket with Steel Structure / *Jin Hua Huang, Mohamed E. Sawan*

#### MAGNET SYSTEMS

- 253 Strength Analysis of the Poloidal Field Coil for Nuclear Fusion Equipment / *Hiroyuki Kojima, Hiroshi Miyata, Hiroshi Kimoto, Susumu Hioki, Teruhiro Takizawa, Masayuki Furuyama*

#### FUSION REACTORS

- 265 Point Design for Deuterium-Deuterium Compact Reversed-Field Pinch Reactors / *Ali E. Dabiri, Donald R. Dobrott, Husam Gurol, Dalton D. Schnack*

#### FIRST-WALL TECHNOLOGY

- 273 Reduced Activation Calculations for the STARFIRE First Wall / *Frederick M. Mann*

(Continued)

### ON THIS COVER

Artist's conception of stress distribution patterns in the bellows region of cooling pipes in a poloidal field coil based on the article by H. Kojima et al.

# CONTENTS / SEPTEMBER 1984—VOL. 6, NO. 2

(Continued)

## NONELECTRICAL APPLICATIONS

- 288 Interfacing the Tandem Mirror Fusion Reactor to a Hydrogen Thermochemical Plant / *Myron A. Hoffman, D. S. Rowe*

## DEPARTMENTS

- 139 Authors
- 305 Meeting Report  
Summary of the Course and Workshop on Mirror-Based and Field-Reversed Approaches to Magnetic Fusion, Varenna, Italy, September 7-17, 1983 / *Roberto Pozzoli*
- 306 Book Reviews  
An Introduction to the Physics of Intense Charged Particle Beams / reviewed by *David A. Hammer*  
Atomic and Molecular Physics in Controlled Thermonuclear Fusion / reviewed by *C. F. Barnett*
- 310 Letters to the Editor  
A French Process for Tritium Removal from Canadian Heavy Water / *E. Roth*  
A Response to "A French Process for Tritium Removal from Canadian Heavy Water" / *T. S. Drolet*
