NUCLEAR EXPLOSIVES

537 Preface / *Roy G. Pos**

TECHNICAL PAPERS

- 539 The Rio Blanco Experiment—Its Objectives, Design, and Execution / *Gerald R. Leutkehans, John Toman, Bennie G. DiBona*
- 559 Rio Blanco: Nuclear Operations and Chimney Reentry / *W. R. Woodruff, R. S. Guido*
- 623 Modification of the Colony Tower for the Rio Blanco Detonation / *John A. Blume, Sigmund A. Freeman, Kenneth K. Honda, Lloyd A. Lee*
- 631 Project Rio Blanco Ground Motion Studies / *E. D. Alcock*
- 640 The Rio Blanco Experiment: Subsurface and Surface Effects and Measurements / *J. Toman, C. Sisemore, R. Terhune*
- 653 Heating Effects in Rio Blanco Rock / *R. W. Taylor, D. W. Bowen, P. E. Rossler*
- 660 Pore Pressure Enhancements Observed on Rio Blanco / *John R. Banister, D. M. Ellett*
- 680 Verifying the Coherency Transfer Function Ground Motion Predictions for Multiple Underground Explosions / *Dean V. Power*
- 692 Production Test Data and Preliminary Analysis of Top Chimney/Cavity / *John Toman*

DEPARTMENTS

- 533 Authors
- 536 Corrigendum
- 705 Volume 27 Indexes
- iii Volume 27 Contents

ON THIS COVER

This month's cover is our artist's conception of the present status of Rio Blanco depicted as a gas flow.
