

Fusion Technology

CONTENTS / JULY 1996—VOL. 29, NO. 4

- iii Comments / *George Miley*
- v Guest Editor's Comments / *Chandu B. Baxi*

SPECIAL SECTION: THERMAL HYDRAULICS

TECHNICAL PAPERS

- 417 Toward Long-Pulse, High-Performance Discharges in Tore Supra: Experimental Knowledge and Technological Developments for Heat Exhaust / *Tore Supra Team*
- 449 Evaluation of Porous Media Heat Exchangers for Fusion Applications / *John H. Rosenfeld, James E. Lindemuth, Mark T. North, Robert D. Watson, Dennis L. Youchison, Richard H. Goulding*
- 459 Local Subcooled Flow-Boiling Model Development / *Ronald D. Boyd, Xiaowei Meng*
- 468 Analytical Modeling of Complete Nukiyama Curves Corresponding to Expected Low Void Fraction at High Subcooling and Flow Rate / *Diethelm Schroeder-Richter*
- 487 Critical Heat Flux of Subcooled Flow Boiling in Swirl Tubes Relevant to High-Heat-Flux Components / *Fujio Inasaka, Hideki Nariai*
- 499 A Mechanistic Model for the Prediction of Water-Subcooled-Flow-Boiling Critical Heat Flux at High Liquid Velocity and Subcooling / *Gian Piero Celata, Maurizio Cumo, Andrea Mariani, Giuseppe Zummo*
- 512 Effect of Porous Coating on Critical Heat Flux Removed by Subcooled Water at Low Flow Rates / *Diethelm Schroeder-Richter, Sabiha Yildiz*
- 519 Critical-Heat-Flux Experiment on the Screw Tube Under One-Sided-Heating Conditions / *Masanori Araki, Kazuyoshi Sato, Satoshi Suzuki, Masato Akiba*
- 529 How Braze Flaws Affect the Thermal-Hydraulic Performance of the Tore Supra Phase-III Outboard Pump Limiter: A Case Study of the Effects of Nonuniform Thermal Resistance on the Peak Heat Flux to the Coolant for Tubes with One-Sided Heating / *R. E. Nygren, J. D. Miller*
- 545 Optimal Thermal-Hydraulic Performance for Helium-Cooled Divertors / *Michael G. Izenson, Jerry L. Martin*
- 559 High-Heat-Flux Testing of Helium-Cooled Heat Exchangers for Fusion Applications / *Dennis L. Youchison, Michael G. Izenson, Chandu B. Baxi, John H. Rosenfeld*
- 571 Vapotron as Heat Sink for Flat High-Conductivity Unidirectional Carbon-Fiber-Composite Tiles / *Hans-Dieter Falter, Dragoslav Ciric, Andrea Celentano, Christopher M. Ibbott, Michael J. Watson, Masanori Araki, Satoshi Suzuki, Kazuyoshi Sato*
- 584 Performance of Hypervapotron Beam-Stopping Elements at JET / *Hans-Dieter Falter, Ernest Thompson*

REGULAR ISSUE CONTENTS

TECHNICAL PAPERS

- 599** Thermal Fatigue Testing of a Diffusion-Bonded Beryllium Divertor Mock-Up Under ITER-Relevant Conditions / *Dennis L. Youchison, Radmir N. Guiniatouline, Robert D. Watson, Jimmie M. McDonald, David S. Walsh, V. I. Beloturov, Igor V. Mazul, Andrey P. Zakharov, Bernice E. Mills, Dale R. Boehme, Vladislav Ilich Savenko*
- 615** Structural Design Codes: Strain-Life Method and Fatigue Damage Estimation for ITER / *Panayiotis J. Karditsas*

DEPARTMENTS

- 627** Report
Development of Fusion Safety Standards / *G. R. Longhurst, D. A. Petti, G. A. Dinneen, J. S. Herring, J. DeLooper, J. D. Levine, M. J. Gouge, D. J. Baker*
- 632** Volume 29 Indexes
- vii** Volume 29 Contents
