

MATERIALS PERFORMANCE IN NUCLEAR STEAM GENERATORS (Presented at the ANS Second International Conference, St. Petersburg, Florida, October 6-10, 1980)

PART ONE

- 9 Foreword: Materials Performance in Nuclear Steam Generators / *John R. Weeks*

TECHNICAL PAPERS

- 10 Materials Performance in Nuclear Pressurized Water Reactor Steam Generators / *Stanley J. Green, J. Peter N. Paine*
- 30 Materials Performance in CANDU Nuclear Steam Generators / *G. F. Taylor, D. P. Dautovich*
- 37 Steam Generator Materials Performance in High Temperature Gas-Cooled Reactors / *J. E. Chafey, D. I. Roberts*
- 50 Experience in Operating Gas-Cooled Reactor Steam Generators of U.K. Design / *D. W. James*
- 60 Experience with Liquid-Metal Fast Breeder Reactor Steam Generators—U.S. Design / *C. C. Stone, J. A. Ford, F. E. Tippets, J. S. McDonald, G. Grant, J. L. Epstein*
- 88 Materials Requirements for Pressurized Water Reactor Steam Generator Tubing / *Ph. Berge, J. R. Donati*
- 105 Chemical Thermohydraulics of Steam Generating Systems / *Paul Cohen*
- 117 System Chemistry Considerations for Nuclear Steam Generators / *Frederick J. Pocock*
- 124 The Implications for Condensate Purification of Operation at pH 9.6 / *R. Garnsey, D. J. Parry*
- 135 Effects of Copper and Nickel Compounds on the Corrosion of Pressurized Water Reactor Steam Generator Materials / *Earl L. White, Warren E. Berry*
- 151 The Design and Construction of Boilers for Advanced Gas-Cooled Reactors in the United Kingdom / *P. J. Cameron, J. Walters*

(Continued)

ON THIS COVER

This month's cover is taken from the paper by K. Ohnishi et al., and is from a simulation model used for FEM analysis.

CONTENTS / OCTOBER 1981—VOL. 55, NO. 1

(Continued)

- 163** Study on Hydrogen-Induced Cracking in the Heat-Affected Zone of Heavy Forgings Overlaid by Stainless Steel / *K. Ohnishi, H. Tsukada, M. Kusuhashi, Y. Tanaka*
- 178** Evaluation of Sodium Phosphate as a Denting Inhibitor / *R. S. Pathania, E. G. McVey*
- 191** Corrosion of Alloy 600 by Cationic Resin Beads / *Martin W. Kendig, Hugh S. Isaacs*
- 196** Pitting Corrosion of Nuclear Steam Generator Materials / *P. J. King, D. P. Dautovich*
- 207** Chemical Cleaning of the Nuclear Power Demonstration Unit Boiler / *C. R. Frost, P. Walmsley, P. V. Balakrishnan, P. McSweeney*
- 218** SNR 300 Experience in Steam Generator Materials / *M. H. Knaap, H. C. D. Nieuwland, J. Vrijen, J. K. van Westenbrugge, W. Husslage, C. P. Scheepens, J. W. Schinkel*
