

# EDITOR'S BOOK REVIEWS

---

*Editor's Book Reviews* are addressed to books that are primarily compilations of data and statistical information.

## **Preparation of Nuclear Targets, A Comprehensive Bibliography**

*Author* Jozef Jaklovsky

*Publisher* Plenum Publishing Corporation,  
New York (1981)

*Pages* 324

*Price* \$95.00

*Preparation of Nuclear Targets, A Comprehensive Bibliography* is a massive compilation of papers spanning a time interval from 1936 to 1980. Indexes are included which arrange the entries by subject, country, and patent. This is an invaluable reference for anyone who needs a quick set of references on the preparation of targets for particle accelerators. *WMF*

## **Radiocarbon and Tritium (Vol. I)**

*Author* Willard Frank Libby

*Editors* Rainer Berger and Leona Marshall Libby

*Publisher* Geo Science Analytical, Inc.,  
129 Ocean Way,  
Santa Monica, CA 90402 (1981)

*Pages* 300

*Price* \$15.00

This book, one of seven volumes by Willard Frank Libby, compiled and edited by Rainer Berger and Leona Marshall Libby, provides the scholar and historian with a wealth of original writings by this prolific and multitalented scientist and man. No comment from this editor on the works of W. F. Libby is appropriate; the collection speaks for itself; it is a must for the library of almost all nuclear technologists. *RGP*
