

# nuclear technology®

## CONTENTS / APRIL 1996—VOL. 114, NO. 1

### TECHNICAL PAPERS

#### FISSION REACTORS

- 1 Validation of MCNP for RBMK Criticality Calculations / *Dietmar Behrens, Sebastian Meyer, Dieter von Ehrenstein, Richard Donderer, Otfried Schumacher, Galina Davydova, Alexander Krayushkin*
- 12 Determination of Core Design Thermal Safety Limits for a Two-Loop Pressurized Water Reactor / *Venceslav Kostadinov*

#### NUCLEAR REACTOR SAFETY

- 23 Fission Product Releases at Severe Light Water Reactor Accident Conditions: ORNL/CEA Measurements Versus Calculations / *Bernard André, Gérard Ducros, Jean Pierre Lévêque, Morris F. Osborne, Richard A. Lorenz, Denis Maro*
- 51 Analysis of Loss-of-Coolant Accidents in the High-Flux Isotope Reactor / *Mark W. Wendel, David G. Morris, Paul T. Williams*
- 68 A Model of Vented Hydrogen Deflagrations in a Containment / *Matthias Heitsch*
- 77 Protection from Radioaerosols and Volatile Radionuclides / *Nikolai B. Mikheev, Sergei A. Kulyukhin, Alla N. Kamenskaya, Igor' A. Rumer*
- 84 A Comparative Risk Assessment for the Russian V213 Power Reactor / *Theron D. Marshall, Robert W. Hockenbury, John A. Honey, Lee C. Cadwallader*

#### NUCLEAR FUEL CYCLES

- 97 Some Computations in Planning Reconstitution of a 500-MW(electric) Fast Breeder Reactor (Metallic) Fuel by Electrorefining / *H. P. Nawada, N. P. Bhat, G. R. Balasubramanian*

#### RADIOACTIVE WASTE MANAGEMENT

- 111 Structural Integrity of Spent Nuclear Fuel Storage Casks Subjected to Drop / *John R. Stokley, David H. Williamson*

#### MATERIALS

- 122 Radioiodine Deposition Losses from Sample Air Containing Particulate and Gaseous Iodine in Nuclear Reactor Sample Lines / *Byung-Soo Lee, William A. Jester*

(Continued)

# CONTENTS / APRIL 1996–VOL. 114, NO. 1

(Continued)

## HEAT TRANSFER AND FLUID FLOW

- 135 An Analytical Approach to Transient Room Temperature Analysis / *T. Paul Yilmaz, William B. Paschal*

## TECHNICAL NOTE

### HEAT TRANSFER AND FLUID FLOW

- 141 On the Subcooled Critical Flow Model in RELAP5/MOD3 / *W. S. Yeung, J. Shirkov*
