

NUCLEAR SCIENCE AND ENGINEERING®

VOLUME 115, NUMBER 1, SEPTEMBER 1993

CONTENTS

TECHNICAL PAPERS

- | | | |
|------------------------|---|--|
| 1 | Differential Neutron Production Cross Sections for 597-MeV Protons | <i>W. B. Amian, R. C. Byrd,
D. A. Clark, C. A. Goulding,
M. M. Meier, G. L. Morgan,
C. E. Moss</i> |
| 13 | Shielding Measurements for 230-MeV Protons | <i>J. V. Siebers,
P. M. DeLuca, Jr.,
D. W. Pearson, G. Coutrakon</i> |
| 24 | Measurement and Calculations of Angular Neutron Flux Spectra from Iron Slabs Bombarded with 14.8-MeV Neutrons | <i>Yukio Oyama,
Kazuaki Kosako,
Hiroshi Maekawa</i> |
| 38 | Observed Penetration of 14-MeV Neutrons in Various Materials | <i>C. M. Logan, T. T. Komoto</i> |
| 43 | Continuum Angular Distributions in the Transition Regions | <i>C. Kalbach</i> |
| 50 | Reactivity Feedback Mechanisms in Aqueous Fissile Solutions | <i>Drew E. Kornreich</i> |
| 62 | One-Dimensional Bimodal Model of Vibration and Impacting of Instrument Tubes in a Boiling Water Reactor | <i>E. Laggiard, J. Runkel,
D. Stegemann</i> |
| TECHNICAL NOTES | | |
| 71 | Determination of the Excitation Function of the (n, xt) Process on Beryllium via Activation in Diverse Neutron Fields and Unfolding Code Calculations | <i>R. Wölfle, A. Suhaimi,
S. M. Qaim</i> |
| 76 | A Measurement of the Effective Delayed Neutron Fraction of the Westinghouse Idaho Nuclear Company Slab Tank Assembly Using Rossi- α Techniques | <i>Gregory D. Spriggs</i> |
| 81 | Use of Padé Approximations in the Analytical Evaluation of the $J(\theta, \beta)$ Function and Its Temperature Derivative | <i>R. S. Keshavamurthy,
R. Harish</i> |
