

## Subject Index

Volume 203 · Numbers 1, 2, and 3  
July, August, and September 2018

- Active interrogation, 34  
Activity inventory, 205  
Adhesion force, 336
- Background radiation, 325  
Boron, 66, 85
- Cesium iodide, 85  
Characterization, 205  
Computational fluid dynamics  
  analysis, 194  
  computational codes, 293  
Core damage frequency, 221  
Creep, 282
- Data analysis, 34  
Decay heat, 17  
  removal system, 194  
Decommissioning, 205  
Differential scanning calorimetry, 272  
Differential thermal analysis, 85  
Dry storage, 282
- Economic impact, 232  
Emergency incident, 92
- Gaseous iodine, 66  
Geological disposal of radioactive  
  waste, 1  
Glass-bonded sodalite synthesis, 261  
Graphite cluster, 336
- Hastelloy X, 336  
Heavy water, 146, 173
- High confidence low probability of  
  failure, 221  
Hydride reorientation, 282
- Inadvertent operation, 194  
Inconel 617, 336  
Integral inherently safe light water  
  reactor, 194
- Lattice physics, 146
- Marine environment, 129  
Melt coolability modeling, 17  
Membrane, 101  
Mixing phenomenon, 194, 293  
Modeling, 58  
Molten salt, 272
- Natural-circulation flow, 293  
Naturally occurring radioactive  
  material quantification, 325
- Offshore floating nuclear  
  plant, 129
- Phase diagram, 109, 272  
Primary circuit, 66  
Probabilistic risk analysis, 221  
Pyroprocess, 261
- Radioactive aerosols, 92  
Radioactive wastewater, 101  
Resource conservation, 232  
Reverse osmosis, 101
- Risk, 1  
  seismic, 221
- Safeguards, 34  
Safety assessment model (K-PAM), 1  
Severe accidents, 17  
Simulation, 58  
Small flow channel, 315  
SOCRAT, 92  
Spent salt, 261  
Subchannel analysis, 173
- Thermal hydraulics, 129  
  3-D system codes, 293  
Thermogravimetric analysis, 85  
Thermophysical properties, 109  
Thorium, 146, 173  
  fuel in a heavy water reactor, 232  
  molten salt reactor, 48  
Treatment, 101  
TRIGA research reactor, 205  
Tritium, 58  
  distribution, 48  
  transport, 48
- Ultrasonic Doppler velocimetry, 315  
Uranium-zirconium alloys, 109  
Urban environment, 325
- Validation, 244  
Vibration effect, 315  
Vitrification, 244
- Waste glass, 244
