

Nuclear Technology

VOLUME 206 · NUMBER 1 · JANUARY 2020

Contents

CRITICAL REVIEW

- 1 A Critical Review of the Experimentally Known Properties of U-Pu-Zr Alloys. Part 2: Thermal and Mechanical Properties
Dawn E. Janney, Steven L. Hayes, Cynthia A. Adkins

TECHNICAL PAPERS

- 23 Pyrolytic Carbon Coating Effects on Oxide and Carbide Kernels Intended for Nuclear Fuel Applications
Miles F. Beaux II, Douglas R. Vodnik, Reuben J. Peterson, Bryan L. Bennett, Kevin M. Hubbard, Brian M. Patterson, Jeffrey D. Goettee, James D. Jurney, Graham M. King, Alice I. Smith, Eric L. Tegtmeier, Erik P. Luther, Venkateswara R. Dasari (DV Rao), David J. Devlin, Igor O. Usov
- 32 Displacement Cascades in Monocrystalline Silicon: Effects of Temperature, Strain, and PKA Energy
Yuan Zhou, Bing Chen, Hongyu He, Bo Li, Xinlin Wang
- 40 Rapid Clogging of High-Efficiency Particulate Air Filters During In-Cell Solvent Fires at Reprocessing Facilities
Takuya Ohno, Shinsuke Tashiro, Yuki Amano, Ryoichiro Yoshida, Hitoshi Abe
- 48 Fuel Cycle Analysis of Novel Assembly Design for Thorium-Uranium-Ceramic-Fueled Thermal, High-Conversion Reactor
N. Kaffeidakis, D. Kotlyar
- 73 A Method to Estimate Fission Product Concentration Uncertainty in a Multi-Time-Step MCNP6 Code Nuclear Fuel Burnup Calculation
Yasuhiro Minamigawa, Evans D. Kitcher, Sunil S. Chirayath
- 82 Effectiveness of Model-Based Defenses for Digitally Controlled Industrial Systems: Nuclear Reactor Case Study
Yeni Li, Elisa Bertino, Hany S. Abdel-Khalik
- 94 Using Artificial Neural Networks for Predicting Mental Workload in Nuclear Power Plants Based on Eye Tracking
Yiqian Wu, Zhiyao Liu, Ming Jia, Cong Chi Tran, Shengyuan Yan

—continued—

Contents continued

VOLUME 206 · NUMBER 1 · JANUARY 2020

- 107** Preliminary Validation of the Shift Monte Carlo Code for Fixed-Source Radiation Transport Problems

*Douglas E. Peplow, Kaushik Banerjee, Gregory G. Davidson, Ian R. Stewart,
Mathew W. Swinney, Jackson N. Wagner*

TECHNICAL NOTE

- 126** Investigative Study of Neutronic Safety Parameters of HPR and EPR Using the MCNP Code

R. G. Abrefah, P. M. Atsu, R. B. M. Sogbadji
