

fusion technology

CONTENTS / MARCH 1998—VOL. 33, NO. 2

TECHNICAL PAPERS

- 97 Vertical Position Control on COMPASS-D / *Parag Vyas, Denis Mustafa, A. William Morris*
- 106 Automated Optimization of Stellarator Coils / *Michael Drevlak*
- 118 Effects of Vapor Shield Expansion on Vapor Shield Effectiveness and Plasma Gun Efficiency / *Eric Tucker, J. Gilligan*
- 130 Toroidal Equilibrium Equipped with Dipole Divertor / *Osami Okada*
- 136 Neutronics Analysis of the International Fusion Materials Irradiation Facility High-Flux Test Volume / *Paul P. H. Wilson, Eric Daum, Ulrich Fischer, Ulrich Von Möllendorff, Detlef Woll*
- 146 ANFIBE: A Comprehensive Model for Swelling and Tritium Release from Neutron-Irradiated Beryllium—II: Comparison of Model Predictions with Experimental Results / *Francesco Scaffidi-Argentina, Mario Dalle Donne, Claudio Ronchi, Claudio Ferrero*
- 164 Burn Characteristics of Advanced Fuel Inertial Fusion Targets / *Naeem A. Tahir, Dieter H. H. Hoffmann*
- 171 Ultrasonic Characterization of Inertial Confinement Fusion Targets / *Thomas J. Asaki, James K. Hoffer, John D. Sheliak*
- 182 Inertial Electrostatic Confinement ^3He Breeder for D- ^3He Satellite Systems / *Luis Chacón, George H. Miley*
- 210 The Impact and Status of Neutron-Activation Cross Sections for Short-Lived Reaction Products of Interest in Fusion Reactor Design / *Robert C. Ward, Don Steiner*

DEPARTMENTS

- 218 Book Review
The Fusion Quest / Thomas C. Simonen
- 219 Meeting Reports
Summary of the First Symposium Current Trends in International Fusion Research: Review and Assessment, Washington, D.C., November 14–18, 1994 / *E. Panarella, Ed.*

Impressions from the Sixth International Conference on Cold Fusion, Toya, Hokkaido, Japan, October 13–18, 1996 / *Heinrich Hora*
