

### TECHNICAL PAPERS

#### FISSION REACTORS

- 1 First In-Pile Experimental Results of High-Plutonium-Content Oxide Fuel for Plutonium Burning in Fast Reactors / *Emmanuelle Picard, Jean Noiro, Raymond L. Moss, Helmut Plitz, Karl Richter, Jacques Rouault*

#### REACTOR SAFETY

- 13 Code Development and Assessment for Reactor Outage Thermal-Hydraulic and Safety Analysis—Midloop Operation with Loss of Residual Heat Removal / *Thomas K. S. Liang, Fu-Kuang Ko*
- 26 A Nodal Kinetics and Thermohydraulics Analysis (NOKTA) Code for Analyzing Rod-Ejection Accidents and Other Transients in Nuclear Power Reactor Cores / *Şadi Kaya, Hasbi Yavuz*

#### THERMAL HYDRAULICS

- 36 An Evaluation of Emergency Operator Actions by an Experimental SGTR Event at the IIST Facility and a Comparison of Mihama-2 SGTR Event Record / *Tay-Jian Liu, Chien-Hsiung Lee, Ching-Chuan Yao, Show-Chyuan Chiang*
- 51 Full-Loan-Rejection Design Analysis for the Lungmen Advanced Boiling Water Reactor Using RETRAN / *Jan-Ru Tang, Lainsu Kao, Jong-Rong Wang, Ruey-Yng Yuann*
- 69 Suppression of Vapor Explosions in a Water-Molten-Tin System by Augmentation of the Void Fraction / *Michael K. Meeks, Michael C. Baker, Riccardo Bonazza*
- 82 Simulation of Two Loss-of-Flow Transients in a VVER-1000 Nuclear Power Plant with RELAP5/MOD3.2 System Code / *Yassin A. Hassan, Dionisie R. Moscalu*

#### REPROCESSING

- 93 Nonphosphate Degradation Products of Tributyl Phosphate and Their Reactivities in Purex Media Under Extreme Conditions / *Yoshikazu Tashiro, Ryuji Kodama, Hiroshi Sugai, Katsuhiko Suzuki, Shingo Matsuoka*

#### RADIOACTIVE WASTE MANAGEMENT AND DISPOSAL

- 101 Long-Term Leaching Experiments of Full-Scale Cemented Waste Forms: Experiments and Modeling / *Bernhard Kienzler, Peter Vejmelka, Horst-Jürgen Herbert, Herbert Meyer, Corinna Altenhein-Haese*
- 119 Radiation Chemical Effects in the Near Field of a Final Disposal Site—I: Radiolytic Products Formed in Concentrated NaCl Solutions / *M. Kelm, E. Bohnert*
- 123 Radiation Chemical Effects in the Near Field of a Final Disposal Site—II: Simulation of the Radiolytic Processes in Concentrated NaCl Solutions / *M. Kelm, E. Bohnert*
- 131 The Self-Ignition Temperatures of Bitumen Mixtures Containing Transition Metal Nitrates / *Ken Okada, Masao Nomura, Yasuhiko Fujii*
