

# Westinghouse Electric Company

*A Portfolio of Innovative Solutions*

An aerial view of a large industrial facility, the AP1000 nuclear reactor, featuring a prominent containment dome and various piping and structures.

**AP1000®  
Technology**

A small, compact microreactor unit mounted on a snowy mountain slope, with solar panels visible in the background.

**Shaping Tomorrow's Energy**

**eVinci™  
Microreactor**

A large, spherical, cratered object, likely a moon or planet, with a circular inset showing a detailed view of a fission surface power microreactor core.

**eVinci™ Fission  
Surface Power  
Microreactor**

A detailed view of a lead fast reactor core, showing a complex arrangement of fuel elements and structural components within a containment vessel.

**Lead Fast Reactor**
